DCT INDUSTRIAL TRUST INC. AND SUBSIDIARIES

**Notes to Consolidated Financial Statements
(Unaudited)**

Note 1 – Organization and Summary of Significant Accounting Policies

Organization

DCT Industrial Trust Inc. is a leading industrial real estate company that owns, operates and develops high-quality bulk distribution and light industrial properties in high-volume distribution markets in the U.S. and Mexico. We were formed as a Maryland corporation in April 2002 and have elected to be treated as a real estate investment trust ("REIT") for United States ("U.S.") federal income tax purposes commencing with our taxable year ended December 31, 2003. We are structured as an umbrella partnership REIT under which substantially all of our current and future business is, and will be, conducted through a majority owned and controlled subsidiary, DCT Industrial Operating Partnership LP (our "operating partnership"), a Delaware limited partnership, for which DCT Industrial Trust Inc. is the sole general partner. As used herein, "DCT Industrial Trust," "DCT," "the Company," "we," "our" and "us" refer to DCT Industrial Trust Inc. and its consolidated subsidiaries and partnerships except where the context otherwise requires.

As of June 30, 2008, we owned, managed or had under development 452 industrial real estate buildings comprised of approximately 75.7 million square feet. Our portfolio of consolidated operating properties included 378 industrial real estate buildings, which consisted of 222 bulk distribution properties, 114 light industrial properties and 42 service center properties comprised of approximately 53.0 million square feet. Our portfolio of 378 consolidated operating properties was 91.8% occupied as of June 30, 2008. As of June 30, 2008, we also consolidated 14 development properties, three redevelopment properties and three properties classified as held for sale. In addition, as of June 30, 2008, we had ownership interests ranging from approximately 1% to 20% in 38 unconsolidated operating properties in institutional joint ventures, or funds, comprised of approximately 12.6 million square feet, and investments in two unconsolidated operating properties and 11 unconsolidated development joint venture properties. We managed three properties where we had no ownership interests.

Summary of Significant Accounting Policies

Interim Financial Information

The accompanying unaudited Consolidated Financial Statements have been prepared in accordance with United States generally accepted accounting principles ("GAAP") and with the instructions to Form 10-Q and Article 10 of Regulation S-X for interim financial information. Accordingly, these statements do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, the accompanying unaudited Consolidated Financial Statements include all adjustments, consisting only of normal recurring items necessary for their fair presentation in conformity with GAAP. Interim results are not necessarily indicative of results for a full year. The information included in this Form 10-Q should be read in conjunction with our audited Consolidated Financial Statements as of December 31, 2007 and related notes thereto as filed on Form 10-K, as amended, on March 28, 2008.

Use of Estimates

The preparation of the Consolidated Financial Statements in accordance with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the Consolidated Financial Statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Reclassifications

Certain items in the Consolidated Statement of Operations for six months ended June 30, 2007 have been reclassified to conform to 2008 classifications.

[Table of Contents](#)

Investment in Real Estate, Valuation and Allocation of Real Estate Acquisitions

We capitalize direct costs associated with, and incremental to, the acquisition, development, redevelopment or improvement of real estate, including asset acquisition costs and leasing costs as well as direct internal costs, if appropriate. Costs associated with acquisition or development pursuits are capitalized as incurred and, if the pursuit is abandoned, these costs are expensed during the period in which the pursuit is abandoned. Such costs considered for capitalization include construction costs, interest, real estate taxes, insurance and other such costs if appropriate. Interest is capitalized based on actual capital expenditures from the period when development or redevelopment commences until the asset is substantially complete based on our current, weighted-average borrowing rates. Costs incurred for maintaining and making repairs to our real estate, which do not extend the life of our assets, are expensed as incurred.

Upon acquisition, the total cost of a property is allocated to land, building, building and land improvements, tenant improvements and intangible lease assets and liabilities pursuant to Statement of Financial Accounting Standards ("SFAS") No. 141, *Business Combinations* ("SFAS No. 141"). The fair value of identifiable tangible assets such as land, building, building and land improvements and tenant improvements is determined on an "as-if-vacant" basis. Management considers the replacement cost of such assets, appraisals, property condition reports, market data and other related information in determining the fair value of the tangible assets. Pursuant to SFAS No. 141, the difference between the fair value and the face value of debt assumed in connection with an acquisition is recorded as a premium or discount and amortized to "Interest expense" over the life of the debt assumed. The valuation of assumed liabilities is based on the current market rate for similar liabilities. The allocation of the total cost of a property to an intangible lease asset includes the value associated with customer relationships and in-place leases that may include leasing commissions, legal and other costs. In addition, the allocation of the total cost of a property requires allocating costs to an intangible asset or liability resulting from in-place leases being above or below the market rental rates on the date of the acquisition. Intangible lease assets or liabilities will be amortized over the life of the remaining in-place leases as an adjustment to "Rental revenues."

We have certain properties which we have acquired or removed from service with the intention to redevelop the building. Buildings under redevelopment require significant construction activities prior to being placed back into service. Additionally, we may acquire, develop, or redevelop certain properties with the intention to contribute the property to an institutional capital management joint venture, in which we may retain ownership in or manage the assets of the joint venture. We refer to these properties as held for contribution. We generally do not depreciate properties classified as redevelopment or held for contribution through the date that the redevelopment properties are stabilized or the properties are contributed. Pre-development costs to prepare land for its intended use prior to significant construction activities are capitalized and classified as "Construction in progress."

Real estate, including land, building, building and land improvements, tenant improvements and leasing costs, and intangible lease assets and liabilities are stated at historical cost less accumulated depreciation and amortization. Depreciation and amortization are computed on a straight-line basis over the estimated useful lives of the related assets or liabilities as follows:

<u>Description</u>	<u>Standard Depreciable Life</u>
Land	Not depreciated
Building	40 years
Building and land improvements	20 years
Tenant improvements	Lease term
Lease costs	Lease term
Intangible lease assets and liabilities	Average term of leases for property
Above/below market rent assets/liabilities	Lease term

The table above reflects the standard depreciable lives typically used to compute depreciation and amortization. However, such depreciable lives may be different based on the estimated useful life of such assets or liabilities. The cost of assets sold or retired and the related accumulated depreciation and/or amortization is removed from the accounts and the resulting gain or loss, if necessary, is reflected in our Consolidated Statements of Operations during the period in which such sale or retirement occurs.

[Table of Contents](#)

Depreciation and Useful Lives of Real Estate Assets

We estimate the depreciable portion of our real estate assets and their related useful lives in order to record depreciation expense. Our ability to accurately estimate the depreciable portions of our real estate assets and their useful lives is critical to the determination of the appropriate amount of depreciation expense recorded and the carrying values of the underlying assets. Any change to the estimated depreciable lives of these assets would have an impact on the depreciation expense we recognize. Depreciation is not recorded on buildings currently held for contribution, in pre-development, being developed or redeveloped until the building is substantially completed and ready for its intended use, normally not later than one year from cessation of major construction activity.

Impairment of Long-Lived Assets

Long-lived assets held and used are carried at cost and evaluated for impairment in accordance with SFAS No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, ("SFAS No. 144). SFAS No. 144 provides that such an evaluation should be performed when events or changes in circumstances indicate that the carrying amounts of these assets may not be fully recoverable. Examples of trigger events include the point at which we deem the long-lived asset to be held for sale, a building remains vacant longer than expected, etc. For operating buildings that we intend to hold long-term, the recoverability is based on the future undiscounted cash flows. If the asset is considered to be impaired, the amount of any impairment is measured as the difference between the carrying value and the fair value of the impaired asset. Long lived assets classified as held for sale are measured at the lower of their carrying amount or fair value less costs to sell. Impairment of long-lived assets is considered a critical accounting estimate because the evaluation of impairment and the determination of fair values involve a number of management assumptions relating to future economic events that could materially affect the determination of the ultimate value, and therefore, the carrying amounts of our real estate. Such assumptions include, but are not limited to, projecting vacancy rates, rental rates, property operating expenses, capital expenditures and debt financing rates, among other things. The capitalization rate is also a significant driving factor in determining the property valuation which requires management's judgment of factors such as market knowledge, historical experience, lease terms, tenant financial strength, economy, demographics, environment, property location, visibility, age, physical condition and investor return requirements, among other things. All of the aforementioned factors are taken as a whole by management in determining the valuation of investment property. The valuation is sensitive to the actual results of any of these uncertain factors, either individually or taken as a whole. Should the actual results differ from management's judgment, the valuation could be negatively affected and may result in a negative impact to our Consolidated Financial Statements. For the three and six months ended June 30, 2008, we recorded an impairment loss of \$1.2 million. No impairment was recorded during the same periods in 2007.

Principles of Consolidation

Our Consolidated Financial Statements include the accounts of our company and our consolidated subsidiaries and partnerships that we control either through ownership of a majority voting interest, as the primary beneficiary, or otherwise. All significant intercompany accounts and transactions have been eliminated in consolidation. Investments in entities in which we do not own a majority voting interest but over which we have the ability to exercise significant influence over operating and financial policies are presented under the equity method. Investments in entities in which we do not own a majority voting interest and over which we do not have the ability to exercise significant influence are carried at the lower of cost or fair value, as appropriate. Our judgments with respect to our level of influence or control of an entity and whether we are the primary beneficiary of a variable interest entity as defined by Financial Accounting Standards Board ("FASB") Interpretation No. 46(R), *Consolidation of Variable Interest Entities* ("FIN No. 46(R)"), involve consideration of various factors including the form of our ownership interest, our representation on the entity's board of directors, the size of our investment (including loans) and our ability to participate in policy making decisions. Our ability to correctly assess our influence or control over an entity affects the presentation of these investments in our Consolidated Financial Statements and, consequently, our financial position and specific items in our results of operations that are used by our stockholders, lenders and others in their evaluation of us.

Generally, we consolidate real estate partnerships and other entities that are not variable interest entities (as defined in FIN No. 46(R)) when we own, directly or indirectly, a majority voting interest in the entity. Emerging Issues Task Force ("EITF") Issue No. 04-5, *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights* ("EITF 04-5"), provides an accounting model to be used by a general partner, or

[Table of Contents](#)

group of general partners, to determine whether the general partner(s) controls a limited partnership or similar entity in light of certain rights held by the limited partners and provides additional guidance on what constitutes substantive kick-out rights and substantive participating rights.

Revenue Recognition

We record rental revenues on a straight-line basis under which contractual rent increases are recognized evenly over the full lease term. Certain properties have leases that provide for tenant occupancy during periods where no rent is due or where minimum rent payments increase during the term of the lease. Accordingly, we record receivables from tenants that we expect to collect over the remaining lease term rather than currently, which are recorded as straight-line rents receivable. When we acquire a property, the terms of existing leases are considered to commence as of the acquisition date for the purposes of this calculation. For the three and six months ended June 30, 2008, the total increase to "Rental revenues" due to straight-line rent adjustments, including amounts reported from discontinued operations, was approximately \$1.0 million and \$2.1 million, respectively. The total increase to "Rental revenues" due to straight-line rent adjustments, including amounts reported from discontinued operations, for the same periods in 2007 was approximately \$1.2 million and \$2.8 million, respectively.

Tenant recovery income includes payments and amounts due from tenants pursuant to their leases for real estate taxes, insurance and other recoverable property operating expenses and is recognized as "Rental revenues" during the same period the related expenses are incurred. Tenant recovery income recognized as "Rental revenues" for the three and six months ended June 30, 2008 was \$11.9 million and \$24.6 million, respectively. For the three and six months ended June 30, 2007, tenant recovery income recognized as rental revenues was approximately \$11.6 million and \$24.1 million, respectively.

In connection with property acquisitions, we may acquire leases with rental rates above or below the market rental rates. Such differences are recorded as an intangible asset or liability pursuant to SFAS No. 141, and amortized to "Rental revenues" over the life of the related leases. Additionally, the unamortized balances of SFAS No. 141 assets and liabilities associated with the early termination of leases are fully amortized to their respective revenue and expense line items in our Consolidated Statements of Operations over the shorter of the expected life of such assets and liabilities or the remaining lease term. For the three and six months ended June 30, 2008, the total net decrease to "Rental revenues" due to the amortization of above and below market rents, including amounts reported from discontinued operations and accelerated amortization due to early terminations, was approximately \$0.3 million. The total net decrease to rental revenues due to the amortization of above and below market rents, including amounts reported from discontinued operations, for the same periods of 2007 were approximately \$0.2 million and \$0.7 million, respectively.

Early lease termination fees are recorded in "Rental revenues" when such amounts are earned. During the three and six months ended June 30, 2008, early termination fees increased revenue by \$0.2 million and \$0.3 million, respectively. Additionally, accelerated amortization associated with early lease terminations for SFAS No. 141 intangible assets and liabilities, including amounts reported as discontinued operations, increased revenue by \$0.2 million for the three and six months ended June 30, 2008, and increased amortization expense by \$0.5 million and \$0.6 million for the same periods, respectively.

During the three and six months ended June 30, 2007, the early termination of leases, including amounts reported as discontinued operations, resulted in a decrease in revenues associated with SFAS No. 141 intangible assets and liabilities of \$0.1 million and \$0.4 million, respectively, and additional amortization expense of \$62,000 and \$0.1 million, respectively.

We earn revenues from asset management fees, acquisition fees and fees for other services pursuant to joint venture and other agreements. These may include acquisition fees based on the sale or contribution of assets and are included in our Consolidated Statements of Operations in "Institutional capital management and other fees." We recognize revenues from asset management fees, acquisition fees and fees for other services when the related fees are earned and are realized or realizable.

New Accounting Pronouncements

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities* ("SFAS No. 161"). SFAS No. 161 requires companies with derivative instruments to disclose information that would enable financial statement users to understand how and why a company uses derivative instruments, how derivative instruments and related hedged items are accounted for under SFAS No. 133, "Accounting for Derivative Instruments and Hedging Activities," ("SFAS No. 133") and how derivative instruments and related hedged items affect a company's financial position, financial performance and cash flows. The new requirements apply to derivative instruments and nonderivative instruments that are designated and qualify as hedging instruments and related hedged items accounted for under SFAS No. 133. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008; however, early application is encouraged. We intend to adopt SFAS No. 161 on January 1, 2009.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160 ("SFAS No. 160"), *Noncontrolling Interests in Consolidated Financial Statements—An Amendment of ARB No. 51*. SFAS No. 160 establishes new accounting and reporting standards for the noncontrolling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008, and early adoption is not permitted. We are currently evaluating the application of SFAS No. 160 and its effect on our Consolidated Financial Statements.

In December 2007, the FASB issued SFAS No. 141, *Business Combinations (revised 2007)* ("SFAS No. 141(R)"). SFAS No. 141(R) requires the acquiring entity in a business combination to record all assets acquired and liabilities assumed at their respective acquisition-date fair values, changes the recognition of assets acquired and liabilities assumed arising from contingencies, changes the recognition and measurement of contingent consideration, and requires the expensing of acquisition-related costs as incurred. SFAS No. 141(R) also requires additional disclosure of information surrounding a business combination, such that users of the entity's financial statements can fully understand the nature and financial impact of the business combination. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not apply the provisions of SFAS No. 141(R) prior to that date. We are currently evaluating the application of SFAS No. 141(R) and its effect on our Consolidated Financial Statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities* ("SFAS No. 159") which expands the use of the fair value measurement to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. Upon adoption of this Statement, we did not elect the SFAS No. 159 option for our existing financial assets and liabilities and therefore adoption of SFAS No. 159 did not have any impact on our Consolidated Financial Statements.

On January 1, 2008, the Company adopted SFAS No. 157, *Fair Value Measurements* ("SFAS No. 157"), which defines fair-value, establishes a framework for measuring fair-value, and expands disclosures about fair-value measurements. SFAS No. 157 applies to reported balances that are required or permitted to be measured at fair-value under existing accounting pronouncements; accordingly, the standard does not require any new fair-value measurements of reported balances.

We have deferred the adoption of SFAS No. 157 with respect to nonfinancial assets and liabilities in accordance with the provisions of FSP FAS 157-2, *Effective Date of FASB Statement No. 157*. Items in this classification include intangible assets and liabilities.

SFAS No. 157 emphasizes that fair-value is a market-based measurement, not an entity-specific measurement. Therefore, a fair-value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair-value measurements, SFAS No. 157 establishes a fair-value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

[Table of Contents](#)

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, that are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair-value measurement is based on inputs from different levels of the fair-value hierarchy, the level in the fair-value hierarchy within which the entire fair-value measurement falls is based on the lowest level input that is significant to the fair-value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair-value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Currently, the Company uses forward starting and interest rate swaps to manage certain interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair-values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. To comply with the provisions of SFAS No. 157, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair-value measurements. In adjusting the fair-value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair-value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair-value hierarchy.

On a recurring basis, we measure our derivatives at fair value, which was a net liability of \$1.3 million as of June 30, 2008. The fair value of these derivatives was determined using Level 2 inputs, as described in SFAS No. 157.

Note 2 – Real Estate

Our consolidated real estate assets consist of operating properties, redevelopment properties, operating properties held for contribution, properties under development and properties in pre-development including land held for future development or other purposes. Our real estate assets, presented at historical cost, include the following as of June 30, 2008 and December 31, 2007 (in thousands):

	June 30, 2008	December 31, 2007
Operating properties	\$2,593,077	\$ 2,623,927
Properties under redevelopment	20,661	37,086
Operating properties held for contribution	115,502	120,188
Properties under development	118,592	76,680
Properties in pre-development including land held	16,858	25,025
Total Investment in Properties	2,864,690	2,882,906
Less accumulated depreciation and amortization	(359,512)	(310,691)
Net Investment in Properties	<u>\$2,505,178</u>	<u>\$ 2,572,215</u>

[Table of Contents](#)

Acquisition Activity

During the six months ended June 30, 2008, we acquired three shell-complete development properties located in Monterrey, Mexico, comprised of approximately 0.5 million square feet for a total cost of approximately \$20.7 million, which includes acquisition costs. These properties were acquired from unrelated third parties using existing cash balances and short-term borrowings.

During the three months ended June 30, 2007, we acquired seven operating properties located in three markets, comprised of approximately 1.5 million square feet for a total cost of approximately \$68.0 million, which includes acquisition costs. During the six months ended June 30, 2007, we acquired 12 operating properties located in six markets, comprised of approximately 2.5 million square feet for a total cost of approximately \$107.9 million, which includes acquisition costs. These properties were acquired from unrelated third parties using existing cash balances and short-term borrowings. For all properties acquired and consolidated, the results of operations for such properties are included in our Consolidated Statements of Operations from the dates of acquisition.

Disposition Activity

During the three months ended June 30, 2008, we disposed of four operating properties comprised of approximately 1.2 million square feet to unrelated third parties for total gross proceeds of approximately \$71.1 million, which resulted in a gain of approximately \$16.7 million.

During the six months ended June 30, 2008, we disposed of five operating properties comprised of approximately 1.3 million square feet to unrelated third parties for total gross proceeds of approximately \$77.2 million, which resulted in a gain of approximately \$17.1 million. Additionally, we contributed approximately 47 acres of land in Atlanta to the IDI/DCT Buford, LLC joint venture. See additional discussion below. As of June 30, 2008, three properties were classified as held for sale in accordance with SFAS No. 144.

During the three months ended June 30, 2007, we disposed of three operating properties comprised of approximately 0.9 million square feet located in three markets, which were contributed to institutional joint ventures in which we retain ownership interests for a total contribution value of approximately \$46.5 million (see discussion below). During the six months ended June 30, 2007, we disposed of 12 operating properties comprised of approximately 3.1 million square feet located in ten markets. We sold three properties comprised of approximately 0.3 million square feet to unrelated third parties for total gross proceeds of approximately \$54.4 million, which resulted in a gain of approximately \$9.6 million. The remaining nine properties comprised of approximately 2.8 million square feet were contributed to institutional joint ventures in which we retain ownership interests for a total contribution value of approximately \$151.4 million (see discussion below).

Contribution of Properties to Institutional Capital Management Joint Ventures

TRT-DCT Industrial Joint Venture I

We entered into our first joint venture agreement, TRT-DCT Industrial Joint Venture I, G.P., "TRT-DCT Venture I," on September 1, 2006 with Dividend Capital Total Realty Trust Inc., "DCTRT." As of June 30, 2008, TRT-DCT Venture I owned approximately \$202.3 million in real estate assets. No further assets are planned to be acquired by the joint venture, except that DCTRT has the option, subject to our consent, to contribute certain additional real estate assets with an aggregate current value of approximately \$10.0 million. TRT-DCT Venture I is funded as follows: (i) an equity contribution from DCTRT to the joint venture (which we estimate to be not less than approximately 90% of the joint venture's required equity capitalization); (ii) an equity contribution from us to the joint venture (which we estimate to be approximately 10% of the joint venture's required equity capitalization); and (iii) secured debt financing to be obtained by the joint venture with a targeted loan-to-value of no less than 55.0% and no more than 75.0%. In June 2007, we issued a secured \$16.0 million, 6.0% interest note, maturing on July 1, 2014 to TRT-DCT Venture I. Our actual ownership percentage may vary depending on amounts of capital contributed and the timing of contributions and distributions.

We did not contribute property into TRT-DCT Venture I during the three and six months ended June 30, 2008. However, during those periods, DCTRT contributed three and five properties to TRT-DCT Venture I comprised of approximately 0.5 million and 1.0 million square feet with combined contribution values of approximately \$30.6 million and \$55.4 million into the venture, respectively. During the three and six months ended June 30, 2008, we contributed cash of \$0.3 million and \$0.7 million, respectively, which represented one percent of the fair value of these contributed assets.

[Table of Contents](#)

During the three months ended June 30, 2007, we contributed one property to TRT-DCT Venture I comprised of approximately 0.6 million square feet with a contribution value of approximately \$31.2 million. The contribution of the one property into TRT-DCT Venture I during the second quarter resulted in a total gain of approximately \$7.8 million, of which approximately \$7.0 million was recognized in our earnings for the three months ended June 30, 2007. The remaining gain of approximately \$0.8 million reduces our basis in the investment and is recognized into earnings over the weighted average life of the property's real estate assets. During the six months ended June 30, 2007, we contributed four properties to TRT-DCT Venture I comprised of approximately 1.4 million square feet with a combined gross contribution value of approximately \$84.2 million. The contribution of the four properties into TRT-DCT Venture I during 2007 resulted in a gain of approximately \$12.1 million, of which approximately \$10.9 million was recognized in our earnings during the six months ended June 30, 2007. The remaining gain of approximately \$1.2 million reduces our basis in the investment and is recognized into earnings over the weighted average life of each property's real estate assets.

TRT-DCT Industrial Joint Venture II

We formed our second joint venture agreement, TRT-DCT Industrial Joint Venture II, G.P., ("TRT-DCT Venture II"), on March 27, 2007 with DCTRT. As of June 30, 2008, TRT-DCT Venture II owned approximately \$68.6 million of real estate assets. TRT-DCT Venture II is structured and funded in a manner similar to TRT-DCT Venture I. No properties were contributed to the fund during the six months ended June 30, 2008.

During the three months ended June 30, 2007, we contributed two properties to TRT-DCT Venture II comprised of approximately 0.3 million square feet with a combined contribution value of \$15.3 million. The contribution of the two properties into TRT-DCT Venture II resulted in a total gain of approximately \$2.3 million, of which approximately \$2.0 million was recognized in our earnings during the three months ended June 30, 2007. The remaining gain of approximately \$0.3 million reduces our basis in the investment and is recognized into earnings over the weighted average life of each property's real estate assets. During the six months ended June 30, 2007, we contributed five properties to TRT-DCT Venture II comprised of approximately 1.4 million square feet with a combined gross contribution value of approximately \$67.2 million. The contribution of the five properties into TRT-DCT Venture II resulted in a total gain of approximately \$6.7 million, of which approximately \$6.0 million was recognized in our earnings during the six months ended June 30, 2007. The remaining gain of approximately \$0.7 million reduces our basis in the investment and is recognized into earnings over the weighted average life of each property's real estate assets.

DCT/SPF Industrial Operating LLC

On August 30, 2007, we entered into a joint venture agreement with Industrial Acquisition LLC ("JP Morgan"), an entity advised by JPMorgan Asset Management, to form DCT/SPF Industrial Operating LLC ("JP Morgan Venture"). As of June 30, 2008, this joint venture owned approximately \$285.2 million of real estate assets. This joint venture was funded with an equity contribution from JP Morgan to the joint venture (approximately 80% of the joint venture's equity capitalization) and an equity contribution from us to the joint venture (approximately 20% of the joint venture's equity capitalization). Our actual ownership percentage may vary depending on amounts of capital contributed and the timing of contributions and distributions.

During the six months ended June 30, 2008, the JP Morgan Venture acquired one property comprised of approximately 0.3 million square feet from an unrelated third party.

[Table of Contents](#)

Development Joint Ventures

IDI/DCT Buford, LLC

On March 10, 2008, we entered into a joint venture agreement with Industrial Developments International, Inc., an unrelated third-party developer, to form IDI/DCT Buford, LLC. This joint venture was funded for the purpose of developing four distribution buildings comprised of approximately 0.6 million square feet in Atlanta, Georgia on approximately 47 acres contributed to the joint venture. We received cash proceeds of approximately \$1.5 million, equity in the venture and recognized a gain on the contribution of the land of approximately \$0.3 million and a deferred gain of approximately \$0.8 million which reduces our basis in the investment and is recognized into earnings over the weighted average life of the related property's real estate assets. As of June 30, 2008, this joint venture owned approximately \$6.1 million of real estate assets.

Stonefield Industrial, LLC

On May 22, 2008, we entered into a joint venture agreement with Panattoni Development Company, an unrelated third-party developer, to form Stonefield Industrial, LLC and develop approximately 49 acres in Reno, Nevada. As of June 30, 2008, the joint venture owned total assets of approximately \$8.2 million.

Discontinued Operations

As of June 30, 2008, we determined that the potential sale of three properties to a third party was considered probable and classified those properties as held for sale in accordance with SFAS No. 144. Additionally, the five properties that were sold during the six months ended June 30, 2008 and the five properties that were sold and during the year ended December 31, 2007, were sold to unrelated third parties and were classified as discontinued operations. See Note 12 for additional information.

Intangible Assets

Aggregate net amortization for intangible assets recognized pursuant to SFAS No. 141 in connection with property acquisitions (excluding assets and liabilities related to above and below market rents; see Note 1 for additional information) was approximately \$6.7 million and \$13.5 million for the three and six months ended June 30, 2008, respectively, and \$7.4 million and \$15.1 million for the three and six months ended June 30, 2007, respectively. Our intangible assets and liabilities included the following as of June 30, 2008 and December 31, 2007 (in thousands):

	June 30, 2008			December 31, 2007		
	Gross	Accumulated Amortization	Net	Gross	Accumulated Amortization	Net
Intangible lease assets	\$155,759	\$ (92,545)	\$63,214	\$160,865	\$ (81,622)	\$79,243
Above market rent	26,253	(17,260)	8,993	27,214	(15,657)	11,557
Below market rent	(17,940)	9,874	(8,066)	(18,565)	9,543	(9,022)

In June 2008, we revised our valuation of intangible lease liabilities related to acquired leases with below market rents and fixed price options to include below market fixed price renewal options. As of June 30, 2008, the cumulative impact of the correcting adjustment was an increase of approximately \$1.1 million to our intangible lease liability, a \$1.1 million increase to the historical cost of our buildings and improvements, a decrease of rental revenues of approximately \$0.2 million of intangible lease liability amortization, and approximately \$0.1 million of depreciation. Management believes that the effect of this correction is not material either quantitatively or qualitatively to our previously issued financial statements.

[Table of Contents](#)

The following table describes the estimated net amortization of such intangible assets and liabilities for the next five years. In addition, the table describes the net increase (decrease) to rental revenues due to the amortization of above and below market rents for the next 5 years and thereafter (in thousands):

For the Year Ended December 31,	Estimated Net Amortization of Lease Intangible Assets	Estimated Net Increase (Decrease) to Rental Revenues Related to Above and Below Market Rents
Remainder of 2008	\$ 10,769	\$ (453)
2009	15,799	(1,035)
2010	10,388	(868)
2011	6,970	(168)
2012	4,754	152
Thereafter	14,534	1,445
Total	<u>\$ 63,214</u>	<u>\$ (927)</u>

Note 3 – Investments in and Advances to Unconsolidated Joint Ventures

We enter into joint ventures primarily for purposes of developing industrial real estate and to establish funds or other commingled investment vehicles with institutional partners. The following describes our unconsolidated joint ventures as of June 30, 2008 and December 31, 2007:

Unconsolidated Joint Ventures	DCT Ownership Percentage as of June 30, 2008	Number of Buildings	Net Equity Investment as of June 30, 2008 December 31, 2007 (in thousands)	
Institutional Funds:				
DCT/SPF Industrial Operating LLC	20%	14	\$ 51,398	\$ 46,924
DCT Fund I LLC	20%	6	2,224	2,580
TRT-DCT Venture II	12.5%	5	1,689	1,750
TRT-DCT Venture I	4.9%	13	1,477	2,496
Developments:				
Stirling Capital Investments (SCLA) ⁽¹⁾	50%	6	38,040	29,827
IDI/DCT	50%	4	8,627	9,165
Sycamore Canyon	90%	2	7,641	5,282
DCT/IDI Buford	75%	—	3,779	—
Logistics Way	95%	1	3,582	3,540
Stonefield	90%	—	2,718	—
Whitestown	90%	—	998	935
Panattoni Investments	N/A	—	—	251
Total		<u>51</u>	<u>\$ 122,173</u>	<u>\$ 102,750</u>

⁽¹⁾ Although we contributed 100% of the initial cash equity capital required by the venture, our partners retain certain participation rights in the venture's available cash flows.

[Table of Contents](#)

As of December 31, 2007, the Company's investments in DCT/SPF Industrial Operating LLC and TRT-DCT Venture I were considered significant subsidiaries pursuant to Accounting Principles Board Opinion No. 18, *The Equity Method of Accounting for Investments in Common Stock*. Condensed combined financial information for DCT/SPF Industrial Operating LLC and TRT-DCT Venture I is as follows (in thousands):

Balance sheet:	June 30, 2008	December 31, 2007
Total investment in properties	\$487,447	\$ 403,290
Accumulated depreciation	(20,832)	(7,435)
Net investment in properties	466,615	395,855
Cash and cash equivalents	2,777	2,409
Other assets	3,651	2,318
Total assets	<u>\$473,043</u>	<u>\$ 400,582</u>
Secured debt	\$129,282	\$ 101,042
Other liabilities	9,242	10,874
Total liabilities	138,524	111,916
Partners' capital	334,519	288,666
Total liabilities and partners' capital	<u>\$473,043</u>	<u>\$ 400,582</u>

Statement of operations:	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007 ⁽¹⁾	2008	2007 ⁽¹⁾
Revenues:				
Rental revenues	\$ 9,877	\$ 2,622	\$ 19,057	\$ 3,895
Other income	10	10	24	20
Total revenues	9,887	2,632	19,081	3,915
Expenses:				
Real estate taxes	(1,110)	(349)	(2,181)	(375)
Rental expenses	(637)	(162)	(1,369)	(309)

Total expenses	(6,745)	(1,722)	(13,147)	(2,568)
Interest expense	(1,502)	(794)	(2,980)	(794)
Net income	<u>\$ 1,640</u>	<u>\$ 116</u>	<u>\$ 2,954</u>	<u>\$ 553</u>

⁽¹⁾ Date of inception for DCT/SPF Industrial Operating LLC was August 22, 2007.

Note 4 – Hedging Activities

To manage interest rate risk for variable rate debt and issuances of fixed rate debt, we primarily use treasury locks and forward-starting swaps as part of our cash flow hedging strategy. These derivatives are designed to mitigate the risk of future interest rate fluctuations by providing a fixed interest rate for a limited, pre-determined period of time. During the three months ended June 30, 2008, we entered into a two-year, LIBOR-based interest rate swap to mitigate the effect on cash outflows attributable to changes in LIBOR related to \$100.0 million variable rate, unsecured notes maturing in June 2010 issued in June 2008.

Net unrealized gains of approximately \$2.1 million and net unrealized losses of \$1.4 million were recorded during the three and six months ended June 30, 2008, respectively. During the three and six months ended June 30, 2007 net unrealized gains of approximately \$5.2 million and \$5.3 million, respectively, were recorded to stockholders' equity and accumulated comprehensive loss as a result of the change in fair value of the outstanding hedges.

[Table of Contents](#)

Gains and losses resulting from hedging ineffectiveness and hedge settlements are recorded as increases and decreases, respectively, to "Interest income and other" in our Consolidated Statements of Operations. No gains or losses related to ineffectiveness were recorded during the three months ended June 30, 2008. During the six months ended June 30, 2008, we recorded a loss of approximately \$46,000 related to the ineffectiveness due to the change in estimated timing of anticipated debt issuances. Additionally, during the three months ended March 31, 2008, two forward swaps no longer qualified for hedge accounting and a loss of \$1.4 million was recorded to "Interest expense" related to their change in fair value. These swaps were settled on April 29, 2008, at which time we recorded a realized gain of approximately \$1.4 million.

During the three and six months ended June 30, 2007, we recorded a realized gain of approximately \$1.8 million, offset by approximately \$0.3 million related to the ineffectiveness due to the change in estimated timing of the anticipated debt issuance of the \$275.0 million forward-starting swap.

As of June 30, 2008 and December 31, 2007, the "Accumulated other comprehensive loss" balance pertaining to the hedges were losses of approximately \$7.0 million and \$6.0 million, respectively. Amounts reported in "Accumulated other comprehensive loss" related to derivatives will be amortized to "Interest expense" as interest payments are made on our current fixed-rate debt and anticipated debt issuances. During the next 12 months, we estimate that approximately \$1.0 million will be amortized from "Accumulated other comprehensive loss" to "Interest expense" resulting in an increase in such expense.

Note 5 – Our Operating Partnership's Private Placement

Prior to October 10, 2006, our operating partnership offered undivided tenancy-in-common interests ("TIC Interests") in certain of our properties to accredited investors in a private placement exempt from registration under the Securities Act of 1933, as amended. In October 2006, we discontinued the private placement of TIC Interests. During the six months ended June 30, 2008, our operating partnership purchased all remaining TIC Interests in the one remaining property for an aggregate of 1.6 million units of limited partnership interest in our operating partnership ("OP Units") valued at approximately \$14.8 million.

The amount of gross proceeds associated with the sales of TIC Interests are recorded in "Financing obligations" in our Consolidated Balance Sheets pursuant to SFAS No. 98 *Accounting for Leases* ("SFAS No. 98"). We had leased back the portion of the building sold to the unrelated third-party investors and, in accordance with SFAS No. 98, a portion of the rental payments made to such investors under the lease agreements were recognized as "Interest expense" using the interest method.

During the six months ended June 30, 2008, we incurred approximately \$0.1 million of rental payments under various lease agreements with certain of the third-party investors. During the three and six months ended June 30, 2007, we incurred approximately \$1.5 million and \$3.6 million, respectively, of rental payments under various lease agreements with certain of the third-party investors. A portion of such amounts was accounted for as a reduction of the outstanding principal balance of the financing obligations and a portion was accounted for as "Interest expense" in our Consolidated Statements of Operations. Included in "Interest expense" was approximately \$0.1 million for the six months ended June 30, 2008, and approximately \$1.3 million and \$3.2 million during the three and six months ended June 30, 2007, respectively, of interest expense related to the financing obligation.

During the six months ended June 30, 2007, our operating partnership exercised purchase options to acquire certain TIC Interests it had previously sold in 14 industrial properties located in Tennessee and Texas. In connection with the exercise of these options, our operating partnership issued an aggregate of approximately 6.8 million OP Units valued at approximately \$76.9 million to acquire such TIC Interests. Related to the purchase of one of these buildings, we assumed \$14.9 million of a secured note with an interest rate of 5.0% that was previously reflected in financing obligations.

[Table of Contents](#)

Note 6 – Senior Unsecured Notes

During the six months ended June 30, 2008, we entered into an agreement, which was effective June 9, 2008, to extend the maturity date of \$175.0 million of the then outstanding \$275.0 million senior unsecured note from June 9, 2008 to June 9, 2013, bearing interest at a fixed rate of 6.11%. The remaining \$100 million was repaid with the proceeds of our Initial Loan, as mentioned below.

On June 6, 2008, we entered into a term loan agreement (the "Agreement") with a syndicate of 10 banks, led by Bank of America, N.A. and Wells Fargo, N.A., pursuant to which the Company may borrow up to \$300 million in senior unsecured term loans. Loans under the Agreement will have a variable interest rate based on either the base rate under the Agreement or LIBOR, at the Company's option, plus a margin that is based on the Company's leverage ratio, as defined by the Agreement. The margins on base rate loans may range from 0% to 0.90%, and the margins on LIBOR-based loans may range from 1.25% to 1.85%. The initial margins based on the Company's current leverage ratio is 0% for base rate loans and 1.50% for LIBOR-based loans. The base rate under the Agreement is defined as the higher of the overnight Federal funds rate plus 0.50% or Bank of America's prime rate. All loans under the Agreement are scheduled to mature on June 6, 2010, but they can be extended at the Company's option for an additional year. The Company may prepay loans under the Agreement, in whole or in part, subject to the payment of a prepayment penalty of 0.50% on the prepaid amount, if such prepayment is made prior to March 6, 2009. Additionally, the Company must pay a fee of 0.15% quarterly in arrears on the average daily unused portion of the loan during such period.

Loans under the Agreement will be funded in two tranches. The first \$100 million was drawn by the Company on June 9, 2008 (the "Initial Loan") and used to repay maturing unsecured notes. The remaining \$200 million can be funded anytime up to December 31, 2008 at the Company's discretion. The Initial Loan has an interest rate based on LIBOR, and the Company has entered into a swap to fix the LIBOR on the Initial Loan for two years at 3.23% per annum resulting in an effective interest rate of 4.73% per annum based on the Company's current leverage ratio. The Company is required to pay interest on the Initial Loan monthly until maturity at which time the outstanding balance is due.

The Agreement contains various customary covenants (including, among others, financial covenants with respect to tangible net worth, debt service coverage and unsecured and secured consolidated leverage and covenants relating to dividends and other restricted payments, liens, certain investments and transaction with affiliates) and if the Company breaches any of these covenants, or fails to pay interest or principal on the loans when due, the holders of the loans could accelerate the due date of the entire amount borrowed. The Agreement also contains other customary events of default, which would entitle the holders of the loans to accelerate the due date of the entire amount borrowed, including, among others, change of control events, defaults under certain other obligations of the Company and insolvency or bankruptcy events.

Note 7 – Minority Interests

Minority interests consisted of the following as of June 30, 2008 and December 31, 2007 (in thousands):

	June 30, 2008	December 31, 2007
OP Units:		
Net investment	\$366,465	\$ 389,174
Distributions	(39,569)	(27,286)
Share of cumulative net loss	(10,525)	(13,882)
Sub-total	<u>316,371</u>	<u>348,006</u>
Cabot non-voting common stock:		
Net investment	63	63
Distributions	(8)	(8)
Share of cumulative net loss	(2)	(2)
Sub-total	<u>53</u>	<u>53</u>
Joint venture partner interest:		
Net investment	2,012	1,983
Distributions	(1)	(1)
Share of cumulative net loss	(347)	(259)
Sub-total	<u>1,664</u>	<u>1,723</u>
Total	<u><u>\$318,088</u></u>	<u><u>\$ 349,782</u></u>

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Minority interests' share of operations:				
Minority interests' share of Income (Loss) From Continuing Operations	\$ (431)	\$ 102	\$ (220)	\$ 187
Minority interest's share of income from discontinued operations	(2,803)	(78)	(2,972)	(1,513)
Minority interest's share of gain (loss) on dispositions of real estate interests	7	(1,395)	(77)	(2,531)
Total minority interests' share of operations	<u><u>\$ (3,227)</u></u>	<u><u>\$ (1,371)</u></u>	<u><u>\$ (3,269)</u></u>	<u><u>\$ (3,857)</u></u>

OP Units

As of June 30, 2008 and December 31, 2007, we owned approximately 83% and 82%, respectively, of the outstanding equity interests of our operating partnership, with the remaining equity interest in our operating partnership owned by third-party investors and Dividend Capital Advisors Group LLC ("DCAG"). Subject to certain agreements, OP Units are redeemable at the option of the unitholder after a fixed period. We have the option of redeeming the OP Units with cash or with shares of our common stock on a one-for-one basis, subject to adjustment. During the three months ended June 30, 2008, 3.8 million OP Units were redeemed for approximately \$0.2 million in cash and 3.7 million shares of common stock. During the six months ended June 30, 2008, 3.9 million OP Units were redeemed for approximately \$1.4 million in cash and 3.7 million shares of common stock. During the three and six months ended June 30, 2007, approximately 0.2 million OP Units were redeemed for approximately \$2.8 million in cash.

Additionally, during the six months ended June 30, 2008, our operating partnership purchased all remaining TIC Interests in the one remaining property for an aggregate of 1.6 million OP Units valued at approximately \$14.8 million. As of June 30, 2008, there was a total of 35.5 million OP Units outstanding with a redemption value of approximately \$293.5 million based on the closing price of our common stock on June 30, 2008. As of December 31, 2007, there were 37.7 million OP Units outstanding with a redemption value of approximately \$351.3 million based on the closing price of our common stock on December 31, 2007. As of June 30, 2008, 23.9 million OP Units were redeemable.

[Table of Contents](#)

Note 8 – Stockholders' Equity

Common Stock

As of June 30, 2008, approximately 172.1 million shares of common stock were issued and outstanding. The net proceeds from the prior sales of these securities were transferred to our operating partnership for a number of OP Units equal to the shares of common stock sold in our public and private offerings. Our operating partnership has used these proceeds to fund the acquisition and development of our properties. During the six months ended June 30, 2008, we issued shares of common stock related to the redemption of OP Units. See additional information in Note 7 above.

Dividend Reinvestment and Stock Purchase Plan

In April 2007, we began offering shares of our common stock through our new Dividend Reinvestment and Stock Purchase Plan (the "Plan"). The Plan permits stockholders to acquire additional shares with quarterly dividends and to make additional cash investments to buy shares directly. Shares of common stock may be purchased in the open market, through privately negotiated transactions, or directly from us as newly issued shares of common stock. All shares issued under the Plan were acquired in the open market.

Stock Based Compensation

Restricted Stock

During the three and six months ended June 30, 2008, we granted approximately 2,000 shares and 0.1 million shares, respectively, of restricted stock to certain officers and employees at the weighted-average fair market value of \$8.28 and \$8.64 per share, respectively. During the three and six months ended June 30, 2007, we granted approximately 6,000 shares and 68,000 shares, respectively, of restricted stock to certain officers and employees at the weighted-average fair market value of \$11.04 and \$11.52 per share, respectively. The restricted stock was recorded at the fair market value of our common stock on the date of issuance. These shares of restricted common stock may not be sold, assigned, transferred, pledged or otherwise disposed of and are subject to a risk of forfeiture prior to the expiration of the applicable vesting period. These shares of restricted common stock have voting rights and rights to receive dividends.

Stock Options

During the three and six months ended June 30, 2008, we granted approximately 7,000 stock options and 1.6 million stock options, respectively, at the weighted-average exercise price of \$8.28 and \$8.66 per share, respectively. The fair value of the aforementioned grants adjusted for estimated forfeitures totaled \$5,000 and \$0.9 million, respectively, and are amortized over their respective vesting periods.

During the three and six months ended June 30, 2007, we granted approximately 15,000 stock options and 0.6 million stock options, respectively, at the weighted-average exercise price of \$9.61 and \$10.43 per share, respectively. The fair value of the aforementioned grants totaled \$16,000 and \$0.6 million, respectively, and are amortized over their respective vesting periods.

Note 9 – Related Party Transactions

Transition services agreement with DCAG

In October 2006, we entered into a transitional services agreement with DC Services, LLC, ("DC Services"), an affiliate of DCAG, whereby we received enumerated transitional services, including IT services, human resources, payroll and accounts payable services, necessary to operate our business for a one-year period for a monthly fee of approximately \$72,000. Upon the expiration of the one-year period, we renewed this agreement through December 31, 2007. During 2007, we paid approximately \$0.9 million to DC Services pursuant to this agreement. DC Services has continued to provide us shared services in 2008 and on March 24, 2008, we entered into a shared services agreement with DC Services whereby DC Services is to provide us shared services during 2008 for a monthly fee of approximately \$60,000, from January 2008 to April 2008 then increasing to approximately \$65,000.

[Table of Contents](#)

Note 10 – Earnings per Share

We determine basic earnings per common share by dividing net income attributable to common stockholders by the weighted average number of shares of common stock and common stock equivalents outstanding during the period. We determine diluted earnings per common share by taking into account the effects of potentially issuable common stock, but only if the issuance of stock would be dilutive, including the presumed exchange of OP Units for shares of common stock. The following table sets forth the computation of our basic and diluted earnings per common share for the three and six months ended June 30, 2008 and 2007 (in thousands except per share information):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2008	2007	2008	2007
Numerator				
Income (Loss) From Continuing Operations	\$ 2,232	\$ (258)	\$ 1,522	\$ (164)
Minority interests' share of net income related to potentially dilutive shares	464	—	305	—
Numerator for diluted earnings per share – adjusted income (loss) from continuing operations	<u>\$ 2,696</u>	<u>\$ (258)</u>	<u>\$ 1,827</u>	<u>\$ (164)</u>
Income from discontinued operations	\$ 13,296	\$ 358	\$ 14,028	\$ 8,870
Minority interest's share of net income related to potentially dilutive shares	2,805	61	2,981	1,507
Numerator for diluted earnings per share – adjusted income from discontinued operations	<u>\$ 16,101</u>	<u>\$ 419</u>	<u>\$ 17,009</u>	<u>\$ 10,377</u>
Gain (Loss) on dispositions of real estate interests, net of minority interest	\$ (32)	\$ 7,737	\$ 330	\$ 14,486
Minority interest's share of net income related to potentially dilutive shares	—	1,315	71	2,462
Numerator for diluted earnings per share – adjusted Gain (Loss) from dispositions of real estate interests	<u>\$ (32)</u>	<u>\$ 9,052</u>	<u>\$ 401</u>	<u>\$ 16,948</u>
Adjusted net income attributable to common stockholders	<u>\$ 18,765</u>	<u>\$ 9,213</u>	<u>\$ 19,237</u>	<u>\$ 27,161</u>
Denominator				
Weighted average common shares outstanding – basic	171,429	168,355	169,908	168,355
Potentially dilutive common shares	36,225	30,348	37,540	29,356
Weighted average common shares outstanding – diluted	<u>207,654</u>	<u>198,703</u>	<u>207,448</u>	<u>197,711</u>
Income per Common Share – Basic				
Income (Loss) From Continuing Operations	\$ 0.01	\$ (0.00)	\$ 0.01	\$ (0.00)
Income from discontinued operations	0.08	0.00	0.08	0.05
Gain (Loss) on dispositions of real estate interests, net of minority interest	(0.00)	0.05	0.00	0.09
Net Income	<u>\$ 0.09</u>	<u>\$ 0.05</u>	<u>\$ 0.09</u>	<u>\$ 0.14</u>
Income per Common Share – Diluted				
Income (Loss) From Continuing Operations	\$ 0.01	\$ (0.00)	\$ 0.01	\$ (0.00)
Income from discontinued operations	0.08	0.00	0.08	0.05
Gain (Loss) on dispositions of real estate interests, net of minority interest	(0.00)	0.05	0.00	0.09
Net Income	<u>\$ 0.09</u>	<u>\$ 0.05</u>	<u>\$ 0.09</u>	<u>\$ 0.14</u>

[Table of Contents](#)

Potentially Dilutive Shares

We have excluded from diluted earnings per share the weighted average common share equivalents related to approximately 1.5 million and 1.6 million stock options for the three and six months ended June 30, 2008 respectively, and approximately 0.4 million and 8,000 stock options for the three and six months ended June 30, 2007, respectively, because their effect would be anti-dilutive. For purposes of calculating diluted earnings per share in accordance with SFAS No. 128, *Earnings per Share*, we treat the dilutive impact of the unvested portion of restricted shares as common stock equivalents.

Note 11 – Segment Information

We consider each operating property to be an individual operating segment that has similar economic characteristics to all our other operating properties, which excludes the results from discontinued operations and includes results from properties held for contribution. Our management considers rental revenues and property net operating income aggregated by property type to be the appropriate way to analyze performance. Certain reclassifications have been made to prior year results to conform to the current presentation, primarily related to discontinued operations (see Note 12 for additional information).

The following table sets forth the rental revenues and property net operating income of our property type segments in continuing operations for the three and six months ended June 30, 2008 and 2007 (in thousands):

	For the Three and Six Months Ended June 30,			
	2008		2007	
	Bulk Distribution	Light Industrial and Other	Bulk Distribution	Light Industrial and Other
Operating properties in continuing operations ⁽¹⁾ :				
For the three months ended June 30:				
Rental revenues	\$ 48,211	\$ 13,528	\$ 48,421	\$ 12,672
Property net operating income ⁽²⁾	\$ 36,627	\$ 9,470	\$ 37,238	\$ 8,816
For the six months ended June 30:				
Rental revenues	\$ 97,514	\$ 27,115	\$ 98,527	\$ 25,336
Property net operating income ⁽²⁾	\$ 73,427	\$ 18,864	\$ 75,331	\$ 17,800

⁽¹⁾ Includes 17 operating properties held for contribution as of June 30, 2008, which are included in continuing operations as they do not meet the criteria to be classified as discontinued operations, in accordance with SFAS No. 144. As of June 30, 2007, three properties were classified as held for contribution.

⁽²⁾ Property net operating income, or property NOI, is defined as rental revenues, including reimbursements, less rental expenses and real estate taxes, which excludes depreciation, amortization, general and administrative expenses and interest expense. We consider property NOI to be an appropriate supplemental performance measure because property NOI reflects the operating performance of our properties and excludes certain items that are not considered to be controllable in connection with the management of the property such as depreciation, amortization, general and administrative expenses and interest expense. However, property NOI should not be viewed as an alternative measure of our financial performance since it excludes expenses which could materially impact our results of operations. Further, our property NOI may not be comparable to that of other real estate companies, as they may use different methodologies for calculating property NOI. Therefore, we believe net income, as defined by GAAP, to be the most appropriate measure to evaluate our overall financial performance.

[Table of Contents](#)

The following table is a reconciliation of our property NOI to our reported "Income (Loss) From Continuing Operations" for the three and six months ended June 30, 2008 and 2007 (in thousands):

	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2008	2007	2008	2007
Property NOI	\$ 46,097	\$ 46,054	\$ 92,291	\$ 93,131
NOI from development and redevelopment properties	418	(403)	826	(180)
Institutional capital management and other fees	614	572	1,474	1,318
Real estate related depreciation and amortization	(28,893)	(27,510)	(57,148)	(55,404)
General and administrative expenses	(5,083)	(5,677)	(10,965)	(9,733)
Equity in income (losses) of unconsolidated joint ventures	439	(31)	726	43
Interest expense	(11,136)	(15,020)	(25,566)	(31,703)
Interest income and other	567	2,157	1,001	3,139
Income taxes	(360)	(502)	(897)	(962)
Minority interests	(431)	102	(220)	187
Income (Loss) from Continuing Operations	<u>\$ 2,232</u>	<u>\$ (258)</u>	<u>\$ 1,522</u>	<u>\$ (164)</u>

The following table reflects our total assets, net of accumulated depreciation and amortization, by property type segment (in thousands):

	June 30, 2008	December 31, 2007
Property type segments:		
Bulk distribution	\$1,878,296	\$ 1,943,128
Light industrial and other	524,529	553,072
Total segment net assets	2,402,825	2,496,200
Development and redevelopment assets	139,286	112,847
Assets held for sale	8,912	—
Non-segment assets:		
Properties in pre-development including land held	16,858	25,025
Non-segment cash and cash equivalents	4,730	3,316
Other non-segment assets ⁽¹⁾	150,922	141,604
Total Assets	<u>\$2,723,533</u>	<u>\$ 2,778,992</u>

⁽¹⁾ Other non-segment assets primarily consists of corporate assets including investments in unconsolidated joint ventures, notes receivable, certain loan costs, including loan costs associated with our financing obligations, and deferred acquisition costs.

Included in rental revenues and segment net assets as of and for the six months ended June 30, 2008 was approximately \$1.6 million and \$61.7 million, respectively, attributable to operations in Mexico which commenced during 2007.

[Table of Contents](#)**Note 12 – Discontinued Operations**

In accordance with SFAS No. 144, we report results of operations from real estate assets that meet the definition of a component of an entity and have been sold, or meet the criteria to be classified as held for sale, as discontinued operations. During the three months ended June 30, 2008, we sold four operating properties, three in our bulk distribution segment and one in our light industrial segment, comprised of approximately 1.2 million square feet to third parties for a total gain of \$16.8 million. During the six months ended June 30, 2008, we sold five operating properties, four in our bulk distribution segment and one in our light industrial segment, comprised of approximately 1.3 million square feet to third parties for a total gain of \$17.1 million. During the year ended December 31, 2007, we sold one development property in our bulk distribution segment comprised of approximately 0.5 million square feet, and four operating properties in our light industrial and other segment comprised of approximately 0.3 million square feet to third parties for a total gain of \$12.1 million. Additionally, as of June 30, 2008, we had three properties comprised of approximately 0.1 million square feet classified as held for sale. For the three and six months ended June 30, 2008 and 2007, "Income from discontinued operations" includes the results of operations of these properties prior to the date of sale. This treatment resulted in certain reclassifications of financial statement amounts for the three and six months ended June 30, 2007.

The following is a summary of the components of "Income from discontinued operations" for the three and six months ended June 30, 2008 and 2007 (in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Rental revenues	\$ 1,361	\$ 2,140	\$ 3,396	\$ 4,241
Rental expenses and real estate taxes	(306)	(610)	(757)	(1,228)
Real estate related depreciation and amortization	(373)	(879)	(1,261)	(1,768)
Operating income	682	651	1,378	1,245
Interest expense, net	(109)	(184)	(253)	(381)
Income taxes	(5)	(31)	(17)	(42)
Income before minority interest and gain on dispositions of real estate	568	436	1,108	822
Gain on dispositions of real estate interests	16,763	—	17,124	9,561
Impairment losses on real estate assets held for sale	(1,232)	—	(1,232)	—
Minority interest	(2,803)	(78)	(2,972)	(1,513)
Income from discontinued operations	<u>\$ 13,296</u>	<u>\$ 358</u>	<u>\$ 14,028</u>	<u>\$ 8,870</u>

Assets classified as held for sale of \$8.9 million at June 30, 2008 include real estate net book value of \$8.7 million and restricted cash and other assets of \$0.2 million. Liabilities related to our assets held for sale were \$0.3 million at June 30, 2008 and these properties had no related mortgage debt. As of December 31, 2007, none of our assets were classified as held for sale.

[Table of Contents](#)

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

We make statements in this report that are considered "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, or the Securities Act, and Section 21E of the Securities Exchange Act of 1934, as amended, or the Exchange Act, which are usually identified by the use of words such as "anticipates," "believes," "estimates," "expects," "intends," "may," "plans," "projects," "seeks," "should," "will," and variations of such words or similar expressions. We intend these forward-looking statements to be covered by the safe harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995 and are including this statement for purposes of complying with those safe harbor provisions. These forward-looking statements reflect our current views about our plans, intentions, expectations, strategies and prospects, which are based on the information currently available to us and on assumptions we have made. Although we believe that our plans, intentions, expectations, strategies and prospects as reflected in or suggested by those forward-looking statements are reasonable, we can give no assurance that the plans, intentions, expectations or strategies will be attained or achieved. Furthermore, actual results may differ materially from those described in the forward-looking statements and will be affected by a variety of risks and factors that are beyond our control including, without limitation:

- the competitive environment in which we operate;
- real estate risks, including fluctuations in real estate values and the general economic climate in local markets and competition for tenants in such markets;
- decreased rental rates or increasing vacancy rates;
- defaults on or non-renewal of leases by tenants;
- acquisition and development risks, including failure of such acquisitions and development projects to perform in accordance with projections;
- the timing of acquisitions and dispositions;
- natural disasters such as fires, hurricanes and earthquakes;
- national, international, regional and local economic conditions, including, in particular, the recent softening of the U.S. economy;
- the general level of interest rates and the availability of debt financing, particularly in light of the recent disruption in the credit markets;
- energy costs;
- the terms of governmental regulations that affect us and interpretations of those regulations, including changes in real estate and zoning laws and increases in real property tax rates;
- financing risks, including the risk that our cash flows from operations may be insufficient to meet required payments of principal, and interest and other commitments;
- lack of or insufficient amounts of insurance;
- litigation, including costs associated with prosecuting or defending claims and any adverse outcomes;
- the consequences of future terrorist attacks;
- possible environmental liabilities, including costs, fines or penalties that may be incurred due to necessary remediation of contamination of properties presently owned or previously owned by us; and
- other risks and uncertainties detailed in the section entitled "Risk Factors."

In addition, our current and continuing qualification as a real estate investment trust, or REIT, involves the application of highly technical and complex provisions of the Internal Revenue Code of 1986, or the Code, and depends on our ability to meet the various requirements imposed by the Code through actual operating results, distribution levels and diversity of stock ownership. We assume no obligation to update publicly any forward-looking statements, whether as a result of new information, future events or otherwise. The following discussion and analysis of our financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements included in this report.

Unless the context otherwise requires, the terms "we," "us" and "our" refer to DCT Industrial Trust Inc. and DCT Industrial Operating Partnership LP, or our operating partnership, and their consolidated subsidiaries.

[Table of Contents](#)

Overview

DCT Industrial Trust Inc. is a leading industrial real estate company that owns, operates and develops high-quality bulk distribution and light industrial properties in high-volume distribution markets in the U.S. and Mexico. As of June 30, 2008, the Company owned, managed or had under development approximately 75.7 million square feet of assets leased to approximately 850 customers, including 12.6 million square feet managed on behalf of three institutional joint venture partners. Our portfolio primarily consists of high-quality, generic bulk distribution warehouses and light industrial properties. We own our properties through our operating partnership and its subsidiaries. DCT Industrial Trust Inc. is the sole general partner and owned approximately 83% of the outstanding equity interests of our operating partnership as of June 30, 2008. We acquired our first property in June 2003 and have grown our portfolio to 378 consolidated operating properties through June 30, 2008.

Our primary business objectives are to maximize sustainable long-term growth in earnings and Funds From Operations, or FFO, as defined on page 44, and to maximize total return to our stockholders. In our pursuit of these objectives, we will:

- actively manage our existing portfolio to maximize operating cash flows;
- acquire properties in selected markets, including Mexico, including through joint ventures;
- pursue development opportunities;
- expand our institutional capital management program; and
- dispose of assets that no longer fit our investment criteria.

In order to achieve these objectives, we have raised capital through common stock issuances, our operating partnership's private placement (as more fully described below) and issued and assumed debt, while maintaining a conservative leverage ratio in relation to other industrial real estate investment trusts.

Outlook

The primary source of our operating revenues and earnings is rents received from tenants under operating leases at our properties, including reimbursements from tenants for certain operating costs. We seek long-term earnings growth primarily through increasing rents and operating income at existing properties, acquiring and developing additional high-quality properties in major distribution markets, increasing fee revenues from our institutional capital management program, and generating profits from our development activities. In addition, we may recycle our capital by selling assets, contributing assets to joint ventures, funds or other commingled investment vehicles with institutional partners, and reinvesting the capital in target markets.

Although the national real estate credit market has experienced increased volatility and the U.S. economy is slowing, we believe that long-term demand for high-quality industrial warehouse space in major distribution markets will remain favorable. We expect near-term operating income from our existing properties to increase through rental rate growth on leases that are expiring and through steady average occupancy rates although occupancy could decline and operating earnings decrease if demand for warehouse space were to fall. Additionally, we may increase operating earnings through increased leasing at our development properties but expect only moderate activity in the near term due to the slowing economy. Increased operating earnings from operating and development activities may be offset by disposing or contributing properties.

The principal risks to our business plan include:

- our ability to lease space to customers at rates which provide acceptable returns and credit risks;
- our ability to sell or contribute assets at prices we find acceptable which generates funding for our business plan;
- our ability to locate development opportunities and to successfully develop and lease such properties on time and within budget and then to successfully lease such properties;
- our ability to attract institutional partners in our institutional capital management program on terms that we find acceptable;
- our ability to acquire properties that meet our quantitative and qualitative investment criteria; and

Table of Contents

- our ability to retain and attract talented people.

We believe our investment focus on the largest and most active distribution markets in the United States and Mexico and our monitoring of market and submarket demand and supply imbalances helps mitigate some of these risks.

We also expect the following key trends to affect our industry positively:

- the continued restructuring of corporate supply chains which may impact local demand for distribution space as companies relocate their operations consistent with their particular requirements or needs;
- the continued growth in international trade which necessitates the increased import and export of products in the U.S. and Mexico;
- the growth or continuing importance of industrial markets located near major transportation hubs including seaports, airports and major intermodal facilities; and
- continuing advancements in technology and information systems which enhance companies' abilities to control their investment in inventories.

These key trends may gradually change the characteristics of the facilities needed by our tenants. However, we believe the buildings in our portfolio are designed to be reconfigured and can accommodate gradual changes that may occur.

Our financing needs will depend largely on our ability to acquire or develop properties as the majority of our cash generated from operations will be used for payment of distributions and to finance other activities. We expect the funding of additional cash needs to come from a combination of extending existing maturities of debt, borrowings under our line of credit, new borrowings and/or proceeds from the sale or contribution of properties.

Inflation

Although the U.S. economy has been experiencing moderately higher inflation rates, and a wide variety of industries and sectors are all being affected differently by rising commodity prices, inflation has not had a significant impact on us in our markets of operation. Most of our leases require the tenants to pay their share of operating expenses, including common area maintenance, real estate taxes and insurance, thereby reducing our exposure to increases in costs and operating expenses resulting from inflation. In addition, many of the outstanding leases expire within five years which enables us to replace existing leases with new leases at the then-existing market rate.

Significant Transactions During 2008

Summary of the six months ended June 30, 2008

During the three months ended June 30, 2008, development activities continued on several properties in Mexico and several of our U.S. target markets. During the six months ended June 30, 2008, we expanded our presence in Mexico from eight buildings comprised of 0.6 million square feet to 11 buildings comprised of 1.2 million square feet. The following further describes certain significant transactions that occurred during the six months ended June 30, 2008.

- *Major Development Activities*

Mexico – During the six months ended June 30, 2008, we acquired three buildings comprised of 0.5 million square feet from Nexxus Desarrollos Industriales ("Nexxus") that were constructed under forward purchase commitments in Monterrey. As of June 30, 2008, 0.3 million square feet were leased. One additional shell-complete building is expected to be acquired in late 2008. During the six months ended June 30, 2008, we also entered into additional forward purchase commitments with Nexxus to purchase four additional buildings, comprised of 0.5 million square feet. Construction commenced on these four buildings during the first quarter 2008 and is expected to be completed in late 2008.

SCLA – During 2006, we entered into a joint venture agreement with Stirling Airports International, LLC, or Stirling, an unrelated third party, to be the master developer of up to 4,350 acres in Victorville, California, part of the Inland Empire submarket in Southern California. The development project is located at the former George Air Force Base which closed in 1992 and is now known as Southern California Logistics Airport, or SCLA. We refer to this joint venture as the SCLA

Table of Contents

joint venture. Stirling entered into two master development agreements which gave it certain rights to be the exclusive developer of the SCLA development project through 2019 (including extensions) and assigned these rights to the SCLA joint venture upon the closing of the venture. While our exact share of the equity interests in the SCLA joint venture will depend on the amount of capital we contribute and the timing of contributions and distributions, the SCLA joint venture contemplates an equal sharing between us and Stirling of residual profits and cash flows after all priority distributions.

During the six months ended June 30, 2008, the SCLA joint venture began construction on one building comprised of approximately 1.0 million square feet. Additionally, two buildings comprised of 0.2 million square feet were completed during the first quarter of 2008 and one building comprised of 0.3 million square feet was completed during the second quarter of 2008. Leasing activities commenced, with 49,000 square feet leased as of June 30, 2008.

IDI/DCT Buford, LLC JV - On March 10, 2008, we entered into a joint venture agreement with Industrial Developments International, Inc., an unrelated third-party developer whereby we contributed 47 acres in Atlanta, Georgia to the venture. We received cash proceeds of approximately \$1.5 million, equity in the venture and recognized a gain on the contribution of the land of approximately \$0.3 million. The venture may develop four distribution buildings comprised of approximately 0.6 million square feet. As of June 30, 2008, this joint venture owned approximately \$6.1 million of real estate assets.

Stonefield Industrial, LLC - On May 22, 2008, we entered into a joint venture agreement with Panattoni Development Company, an unrelated third-party developer, to form Stonefield Industrial, LLC and develop approximately 49 acres in Reno, Nevada. As of June 30, 2008, the joint venture owned total assets of approximately \$8.2 million.

- *Disposition Activity*

During the six months ended June 30, 2008, we disposed of five operating properties comprised of approximately 1.3 million square feet to unrelated third parties for total gross proceeds of approximately \$77.2 million, which resulted in total gains of approximately \$17.1 million. Additionally, we contributed approximately 47 acres of land in Atlanta to the IDI/DCT Buford, LLC joint venture. See additional discussion above. As of June 30, 2008, three properties were classified as held for sale due to the probable disposition of these properties.

Additionally, as of June 30, 2008, we determined that the potential sale of three properties to a third party was considered probable and classified those properties as held for sale in accordance with Statement of Financial Accounting Standards, or SFAS, No. 144, *Accounting for the Impairment or Disposal of Long-Lived Assets*, or SFAS144. For the three and six months ended June 30, 2008, we recorded an impairment loss of \$1.2 million related to these properties.

- *New Long-Term Borrowings*

On June 6, 2008, we entered into a term loan agreement (the "Agreement") with a syndicate of 10 banks, led by Bank of America, N.A. and Wells Fargo, N.A., pursuant to which the Company may borrow up to \$300 million in senior unsecured term loans. Loans under the Agreement will have a variable interest rate based on either the base rate under the Agreement or LIBOR, at the Company's option, plus a margin that is based on the Company's leverage ratio, as defined by the Agreement. The margins on base rate loans may range from 0% to 0.90%, and the margins on LIBOR-based loans may range from 1.25% to 1.85%. The initial margins based on the Company's current leverage ratio is 0% for base rate loans and 1.50% for LIBOR-based loans. The base rate under the Agreement is defined as the higher of the overnight Federal funds rate plus 0.50% or Bank of America's prime rate. All loans under the Agreement are scheduled to mature on June 6, 2010, but they can be extended at the Company's option for an additional year. The Company may prepay loans under the Agreement, in whole or in part, subject to the payment of a prepayment penalty of 0.50% on the prepaid amount, if such prepayment is made prior to March 6, 2009. Additionally, the Company must pay a fee of 0.15% quarterly in arrears on the average daily unused portion of the loan during such period.

[Table of Contents](#)

Loans under the Agreement will be funded in two tranches. The first \$100 million was drawn by the Company on June 9, 2008 (the "Initial Loan") and used to repay maturing unsecured notes. The remaining \$200 million can be funded anytime up to December 31, 2008 at the Company's discretion. The Initial Loan has an interest rate based on LIBOR, and the Company has entered into a swap to fix the LIBOR on the Initial Loan for two years at 3.23% per annum resulting in an effective interest rate of 4.73% per annum based on the Company's current leverage ratio. The Company is required to pay interest on the Initial Loan monthly until maturity at which time the outstanding balance is due.

The Agreement contains various customary covenants (including, among others, financial covenants with respect to tangible net worth, debt service coverage and unsecured and secured consolidated leverage and covenants relating to dividends and other restricted payments, liens, certain investments and transaction with affiliates) and if the Company breaches any of these covenants, or fails to pay interest or principal on the loans when due, the holders of the loans could accelerate the due date of the entire amount borrowed. The Agreement also contains other customary events of default, which would entitle the holders of the loans to accelerate the due date of the entire amount borrowed, including, among others, change of control events, defaults under certain other obligations of the Company and insolvency or bankruptcy events.

During the six months ended June 30, 2008, we entered into an agreement, which was effective June 9, 2008, to extend the maturity date of \$175.0 million of the then outstanding \$275.0 million senior unsecured note from June 9, 2008 to June 9, 2013, bearing interest at a fixed rate of 6.11%. The remaining \$100 million was repaid with the proceeds of our Initial Loan, as mentioned above.

Critical Accounting Policies

General

Our discussion and analysis of financial condition and results of operations is based on our Consolidated Financial Statements, which have been prepared in accordance with United States generally accepted accounting principles, or GAAP. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities and contingencies as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting periods. We evaluate our assumptions and estimates on an on-going basis. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions. The following discussion pertains to accounting policies management believes are most "critical" to the portrayal of our financial condition and results of operations that require management's most difficult, subjective or complex judgments.

Revenue Recognition

We record rental revenues on a straight-line basis under which contractual rent increases are recognized evenly over the full lease term. Certain properties have leases that provide for tenant occupancy during periods where no rent is due or where minimum rent payments increase during the term of the lease. Accordingly, we record receivables from tenants that we expect to collect over the remaining lease term rather than currently, which are recorded as straight-line rents receivable. When we acquire a property, the terms of existing leases are considered to commence as of the acquisition date for the purposes of this calculation.

Tenant recovery income includes payments and amounts due from tenants pursuant to their leases for real estate taxes, insurance and other recoverable property operating expenses and is recognized as "Rental revenues" during the same period the related expenses are incurred.

[Table of Contents](#)

In connection with property acquisitions, we may acquire leases with rental rates above or below the market rental rates. Such differences are recorded as an intangible asset or liability pursuant to Statement of Financial Accounting Standards, or SFAS, No. 141, *Business Combinations*, or SFAS No. 141, and amortized to "Rental revenues" over the life of the related leases. Additionally, the unamortized balances of SFAS No. 141 assets and liabilities associated with the early termination of leases are fully amortized to their respective revenue and expense line items in our Consolidated Statements of Operations over the shorter of the expected life of such assets and liabilities or the remaining lease term.

Investment in Real Estate, Valuation and Allocation of Real Estate Acquisitions

We capitalize direct costs associated with, and incremental to, the acquisition, development, redevelopment or improvement of real estate, including asset acquisition costs and leasing costs as well as direct internal costs, if appropriate. Costs associated with acquisition or development pursuits are capitalized as incurred and, if the pursuit is abandoned, these costs are expensed during the period in which the pursuit is abandoned. Such costs considered for capitalization include construction costs, interest, real estate taxes, insurance and other such costs if appropriate. Interest is capitalized based on actual capital expenditures from the period when development or redevelopment commences until the asset is substantially complete based on our current, weighted-average borrowing rates. Costs incurred for maintaining and making repairs to our real estate, which do not extend the life of our assets, are expensed as incurred.

Upon acquisition, the total cost of a property is allocated to land, building, building and land improvements, tenant improvements and intangible lease assets and liabilities pursuant to SFAS No. 141. The fair value of identifiable tangible assets such as land, building, building and land improvements and tenant improvements is determined on an "as-if-vacant" basis. Management considers the replacement cost of such assets, appraisals, property condition reports, market data and other related information in determining the fair value of the tangible assets. Pursuant to SFAS No. 141, the difference between the fair value and the face value of debt assumed in connection with an acquisition is recorded as a premium or discount and amortized to "Interest expense" over the life of the debt assumed. The valuation of assumed liabilities is based on the current market rate for similar liabilities. The allocation of the total cost of a property to an intangible lease asset includes the value associated with customer relationships and in-place leases that may include leasing commissions, legal and other costs. In addition, the allocation of the total cost of a property requires allocating costs to an intangible asset or liability resulting from in-place leases being above or below the market rental rates on the date of the acquisition. Intangible lease assets or liabilities will be amortized over the life of the remaining in-place leases as an adjustment to "Rental revenues."

We have certain properties which we have acquired or removed from service with the intention to redevelop the building. Buildings under redevelopment require significant construction activities prior to being placed back into service. Additionally, we may acquire, develop, or redevelop certain properties with the intention to contribute the property to an institutional capital management joint venture, in which we may retain ownership in or manage the assets of the joint venture. We refer to these properties as held for contribution. We generally do not depreciate properties classified as redevelopment or held for contribution through the date that the redevelopment properties are stabilized or the properties are contributed. Pre-development costs to prepare land for its intended use prior to significant construction activities are capitalized and classified as "Construction in progress."

[Table of Contents](#)

Real estate, including land, building, building and land improvements, tenant improvements and leasing costs, and intangible lease assets and liabilities are stated at historical cost less accumulated depreciation and amortization. Depreciation and amortization are computed on a straight-line basis over the estimated useful lives of the related assets or liabilities as follows:

	<u>Description</u>	<u>Standard Depreciable Life</u>
Land		Not depreciated
Building		40 years
Building and land improvements		20 years
Tenant improvements		Lease term
Lease costs		Lease term
Intangible lease assets and liabilities		Average term of leases for property
Above/below market rent assets/liabilities		Lease term

The table above reflects the standard depreciable lives typically used to compute depreciation and amortization. However, such depreciable lives may be different based on the estimated useful life of such assets or liabilities. The cost of assets sold or retired and the related accumulated depreciation and/or amortization is removed from the accounts and the resulting gain or loss, if necessary, is reflected in our Consolidated Statements of Operations during the period in which such sale or retirement occurs.

Depreciation and Useful Lives of Real Estate Assets

We estimate the depreciable portion of our real estate assets and their related useful lives in order to record depreciation expense. Our ability to accurately estimate the depreciable portions of our real estate assets and their useful lives is critical to the determination of the appropriate amount of depreciation expense recorded and the carrying values of the underlying assets. Any change to the estimated depreciable lives of these assets would have an impact on the depreciation expense we recognize. Depreciation is not recorded on buildings currently held for contribution, in pre-development, being developed or redeveloped until the building is substantially completed and ready for its intended use, normally not later than one year from cessation of major construction activity. If the useful life estimate was reduced by one year for all buildings and building and land improvements in continuing operations, depreciation expense would have increased \$0.8 million.

Impairment of Long-Lived Assets

Long-lived assets held and used are carried at cost and evaluated for impairment in accordance with SFAS144. SFAS144 provides that such an evaluation should be performed when events or changes in circumstances indicate that the carrying amounts of these assets may not be fully recoverable. Examples of trigger events include the point at which we deem the long-lived asset to be held for sale, a building remains vacant longer than expected, etc. For operating buildings that we intend to hold long-term, the recoverability is based on the future undiscounted cash flows. If the asset is considered to be impaired, the amount of any impairment is measured as the difference between the carrying value and the fair value of the impaired asset. Long lived assets classified as held for sale are measured at the lower of their carrying amount or fair value less costs to sell. Impairment of long-lived assets is considered a critical accounting estimate because the evaluation of impairment and the determination of fair values involve a number of management assumptions relating to future economic events that could materially affect the determination of the ultimate value, and therefore, the carrying amounts of our real estate. Such assumptions include, but are not limited to, projecting vacancy rates, rental rates, property operating expenses, capital expenditures and debt financing rates, among other things. The capitalization rate is also a significant driving factor in determining the property valuation which requires management's judgment of factors such as market knowledge, historical experience, lease terms, tenant financial strength, economy, demographics, environment, property location, visibility, age, physical condition and investor return requirements, among other things. All of the aforementioned factors are taken as a whole by management in determining the valuation of investment property. The valuation is sensitive to the actual results of any of these uncertain factors, either individually or taken as a whole. Should the actual results differ from management's judgment, the valuation could be negatively affected and may result in a negative impact to our Consolidated Financial Statements.

[Table of Contents](#)

Principles of Consolidation

Our Consolidated Financial Statements include the accounts of our company and our consolidated subsidiaries and partnerships that we control either through ownership of a majority voting interest, as the primary beneficiary, or otherwise. All significant intercompany accounts and transactions have been eliminated in consolidation. Investments in entities in which we do not own a majority voting interest but over which we have the ability to exercise significant influence over operating and financial policies are presented under the equity method. Investments in entities in which we do not own a majority voting interest and over which we do not have the ability to exercise significant influence are carried at the lower of cost or fair value, as appropriate. Our judgments with respect to our level of influence or control of an entity and whether we are the primary beneficiary of a variable interest entity as defined by Financial Accounting Standards Board, or FASB, Interpretation No. 46(R), *Consolidation of Variable Interest Entities*, or FIN No. 46(R), involve consideration of various factors including the form of our ownership interest, our representation on the entity's board of directors, the size of our investment (including loans) and our ability to participate in policy making decisions. Our ability to correctly assess our influence or control over an entity affects the presentation of these investments in our Consolidated Financial Statements and, consequently, our financial position and specific items in our results of operations that are used by our stockholders, lenders and others in their evaluation of us.

Generally, we consolidate real estate partnerships and other entities that are not variable interest entities (as defined in FIN No. 46(R)) when we own, directly or indirectly, a majority voting interest in the entity. Emerging Issues Task Force, or EITF, Issue No. 04-5, *Determining Whether a General Partner, or the General Partners as a Group, Controls a Limited Partnership or Similar Entity When the Limited Partners Have Certain Rights*, or EITF 04-5, provides an accounting model to be used by a general partner, or group of general partners, to determine whether the general partner(s) controls a limited partnership or similar entity in light of certain rights held by the limited partners and provides additional guidance on what constitutes substantive kick-out rights and substantive participating rights.

Customer Diversification

As of June 30, 2008, there were no customers that occupied more than 5.0% of our consolidated and unconsolidated operating properties and development properties based on annualized base rent or gross leased square feet. The following table reflects our ten largest customers, based on annualized base rent as of June 30, 2008, that occupy approximately 10.7 million square feet in all consolidated and unconsolidated operating properties, and development properties.

Deutsche Post World Net (DHL & Exel)
Technicolor
Whirlpool Corporation
Bridgestone/Firestone
S.C Johnson & Son, Inc.
The Clorox Sales Company
Ozburn-Hessey Logistics
Home Depot Inc.
United Parcel Service (UPS)
EGL, Inc.

[Table of Contents](#)

New Accounting Pronouncements

In March 2008, the FASB issued SFAS No. 161, *Disclosures about Derivative Instruments and Hedging Activities*, or SFAS No. 161. SFAS No. 161 requires companies with derivative instruments to disclose information that would enable financial statement users to understand how and why a company uses derivative instruments, how derivative instruments and related hedged items are accounted for under SFAS No. 133, *Accounting for Derivative Instruments and Hedging Activities*, or SFAS No. 133, and how derivative instruments and related hedged items affect a company's financial position, financial performance and cash flows. The new requirements apply to derivative instruments and nonderivative instruments that are designated and qualify as hedging instruments and related hedged items accounted for under SFAS No. 133. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008; however, early application is encouraged. We intend to adopt SFAS No. 161 on January 1, 2009.

In December 2007, the FASB issued Statement of Financial Accounting Standards No. 160, or SFAS No. 160, *Noncontrolling Interests in Consolidated Financial Statements—An Amendment of ARB No. 51*. SFAS No. 160 establishes new accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. SFAS No. 160 is effective for fiscal years beginning on or after December 15, 2008, and early adoption is not permitted. We are currently evaluating the application of SFAS No. 160 and its effect on our Consolidated Financial Statements.

In December 2007, the FASB issued SFAS No. 141, *Business Combinations (revised 2007)*, or SFAS No. 141(R). SFAS No. 141(R) requires the acquiring entity in a business combination to record all assets acquired and liabilities assumed at their respective acquisition-date fair values, changes the recognition of assets acquired and liabilities assumed arising from contingencies, changes the recognition and measurement of contingent consideration, and requires the expensing of acquisition-related costs as incurred. SFAS No. 141(R) also requires additional disclosure of information surrounding a business combination, such that users of the entity's financial statements can fully understand the nature and financial impact of the business combination. SFAS No. 141(R) applies prospectively to business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. An entity may not apply the provisions of SFAS No. 141(R) prior to that date. We are currently evaluating the application of SFAS No. 141(R) and its effect on our Consolidated Financial Statements.

In February 2007, the FASB issued SFAS No. 159, *The Fair Value Option for Financial Assets and Financial Liabilities*, or SFAS No. 159, which expands the use of the fair value measurement to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. Upon adoption of this Statement, we did not elect the SFAS No. 159 option for our existing financial assets and liabilities and therefore adoption of SFAS No. 159 did not have any impact on our Consolidated Financial Statements.

On January 1, 2008, the Company adopted SFAS No. 157, *Fair Value Measurements*, or SFAS No. 157, which defines fair-value, establishes a framework for measuring fair-value, and expands disclosures about fair-value measurements. SFAS No. 157 applies to reported balances that are required or permitted to be measured at fair-value under existing accounting pronouncements; accordingly, the standard does not require any new fair-value measurements of reported balances.

We have deferred the adoption of SFAS No. 157 with respect to nonfinancial assets and liabilities in accordance with the provisions of FSP FAS 157-2, *Effective Date of FASB Statement No. 157*. Items in this classification include intangible assets and liabilities.

SFAS No. 157 emphasizes that fair-value is a market-based measurement, not an entity-specific measurement. Therefore, a fair-value measurement should be determined based on the assumptions that market participants would use in pricing the asset or liability. As a basis for considering market participant assumptions in fair-value measurements, SFAS No. 157 establishes a fair-value hierarchy that distinguishes between market participant assumptions based on market data obtained from sources independent of the reporting entity (observable inputs that are classified within Levels 1 and 2 of the hierarchy) and the reporting entity's own assumptions about market participant assumptions (unobservable inputs classified within Level 3 of the hierarchy).

[Table of Contents](#)

Level 1 inputs utilize quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company has the ability to access. Level 2 inputs are inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs may include quoted prices for similar assets and liabilities in active markets, as well as inputs that are observable for the asset or liability (other than quoted prices), such as interest rates, foreign exchange rates, and yield curves that are observable at commonly quoted intervals. Level 3 inputs are unobservable inputs for the asset or liability, that are typically based on an entity's own assumptions, as there is little, if any, related market activity. In instances where the determination of the fair-value measurement is based on inputs from different levels of the fair-value hierarchy, the level in the fair-value hierarchy within which the entire fair-value measurement falls is based on the lowest level input that is significant to the fair-value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair-value measurement in its entirety requires judgment, and considers factors specific to the asset or liability.

Currently, the Company uses forward starting and interest rate swaps to manage certain interest rate risk. The valuation of these instruments is determined using widely accepted valuation techniques including discounted cash flow analysis on the expected cash flows of each derivative. This analysis reflects the contractual terms of the derivatives, including the period to maturity, and uses observable market-based inputs, including interest rate curves. The fair-values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts (or payments) and the discounted expected variable cash payments (or receipts). The variable cash payments (or receipts) are based on an expectation of future interest rates (forward curves) derived from observable market interest rate curves. To comply with the provisions of SFAS No. 157, the Company incorporates credit valuation adjustments to appropriately reflect both its own nonperformance risk and the respective counterparty's nonperformance risk in the fair-value measurements. In adjusting the fair-value of its derivative contracts for the effect of nonperformance risk, the Company has considered the impact of netting and any applicable credit enhancements, such as collateral postings, thresholds, mutual puts, and guarantees.

Although the Company has determined that the majority of the inputs used to value its derivatives fall within Level 2 of the fair-value hierarchy, the credit valuation adjustments associated with its derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by itself and its counterparties. The Company has assessed the significance of the impact of the credit valuation adjustments on the overall valuation of its derivative positions and has determined that the credit valuation adjustments are not significant to the overall valuation of its derivatives. As a result, the Company has determined that its derivative valuations in their entirety are classified in Level 2 of the fair-value hierarchy.

[Table of Contents](#)

Results of Operations

Summary of the three and six months ended June 30, 2008 compared to the same periods ended June 30, 2007

DCT Industrial Trust Inc. is a leading industrial real estate company that owns, operates and develops high-quality bulk distribution and light industrial properties in high-volume distribution markets in the U.S. and Mexico. As of June 30, 2008, we consolidated 378 operating properties, three redevelopment properties, 14 development properties and three properties classified as held for sale, and we owned, managed or had under development approximately 75.7 million square feet of assets leased to approximately 850 customers, including 12.6 million square feet managed on behalf of three institutional joint venture partners. As of June 30, 2007, we consolidated 372 operating properties (including six operating properties held for contribution), seven redevelopment properties and five development properties located in a total of 23 markets throughout the United States. Subsequent to June 30, 2007, nine of the operating properties were sold or classified as held for sale and results of these operations were reclassified to discontinued operations.

The following table illustrates the changes in our consolidated operating properties in continuing operations by segment as of, and for the three and six months ended June 30, 2008 compared to the same periods ended June 30, 2007, (dollar amounts in thousands).

	As of, and for the Three and Six Months Ended June 30,			
	2008		2007	
	Bulk Distribution	Light Industrial and Other	Bulk Distribution	Light Industrial and Other
Operating properties in continuing operations ⁽¹⁾ :				
Number of buildings	222	156	213	150
Square feet (in thousands)	45,137	7,855	45,239	7,227
Occupancy at end of period	92.3%	88.5%	93.5%	88.6%
Segment net assets	\$ 1,878,296	\$ 524,529	\$ 1,932,420	\$ 508,760
For the three months ended June 30:				
Rental revenues	\$ 48,211	\$ 13,528	\$ 48,421	\$ 12,672
Property net operating income ⁽²⁾	\$ 36,627	\$ 9,470	\$ 37,238	\$ 8,816
For the six months ended June 30:				
Rental revenues	\$ 97,514	\$ 27,115	\$ 98,527	\$ 25,336
Property net operating income ⁽²⁾	\$ 73,427	\$ 18,864	\$ 75,331	\$ 17,800

⁽¹⁾ Includes 17 operating properties held for contribution as of June 30, 2008, which are included in continuing operations as they do not meet the criteria to be classified as discontinued operations, in accordance with SFAS No. 144. As of June 30, 2007, three properties were classified as held for contribution.

⁽²⁾ Property net operating income, or property NOI, is defined as rental revenues, including reimbursements, less rental expenses and real estate taxes, which excludes depreciation, amortization, general and administrative expenses and interest expense. We consider property NOI to be an appropriate supplemental performance measure because property NOI reflects the operating performance of our properties and excludes certain items that are not considered to be controllable in connection with the management of the property such as depreciation, amortization, general and administrative expenses and interest expense. However, property NOI should not be viewed as an alternative measure of our financial performance since it excludes expenses which could materially impact our results of operations. Further, our property NOI may not be comparable to that of other real estate companies, as they may use different methodologies for calculating property NOI. Therefore, we believe net income, as defined by GAAP, to be the most appropriate measure to evaluate our overall financial performance. See "Notes to our Consolidated Financial Statements, Note 11 – Segment Information" for a reconciliation of our property NOI to our reported "Income (Loss) From Continuing Operations" for the three and six months ended June 30, 2008 and 2007.

Comparison of the three months ended June 30, 2008 compared to the three months ended June 30, 2007

The following table illustrates the changes in rental revenues, rental expenses and real estate taxes, property net operating income, other income and other expenses for the three months ended June 30, 2008 compared to the three months ended June 30, 2007. Our same store portfolio includes all operating properties that we owned for the entirety of both the current and prior year reporting periods for which the operations had been stabilized. The same store portfolio for the three months ended June 30, 2008 totaled 349 buildings comprised of approximately 48.7 million square feet. A discussion of these changes follows the table (in thousands).

For a reconciliation of our property net operating income to our reported "Income (Loss) From Continuing Operations", see Note 11 to our Consolidated Financial Statements.

[Table of Contents](#)

Rental Revenues

Rental revenues increased by approximately \$1.5 million, or 3%, for the three months ended June 30, 2008 compared to the same period in 2007, primarily as a result of increased base rent per square foot and higher tenant recovery income which was offset by slightly lower average occupancy and acquisition and disposition activity. Rental revenues also increased due to additional operating properties classified as held for contribution that were acquired or developed compared to the same period in 2007. Same store rental revenues, excluding revenues related to early lease terminations, increased by approximately \$0.7 million, or 1%, for the three months ended June 30, 2008 compared to the same period in 2007 also primarily due to increased base rent per square foot and higher tenant recovery income. Revenues related to early lease terminations increased by \$0.2 million for the three months ended June 30, 2008 compared to the same period in 2007.

Rental Expenses and Real Estate Taxes

Rental expenses and real estate taxes increased by approximately \$0.7 million, or 4%, for the three months ended June 30, 2008 compared to the same period in 2007, primarily as a result of higher property taxes and utility costs, both of which are generally recoverable from our tenants. Non-recoverable expenses, including bad debt expense, increased approximately \$0.3 million. Same store rental expenses and real estate taxes increased by approximately \$0.6 million, or 4%, for the three months ended June 30, 2008 as compared to the same period in 2007, also primarily related to higher property taxes and utility costs.

Other Income

Other income decreased by approximately \$10.2 million for the three months ended June 30, 2008 as compared to the same period in 2007, as a result of a decrease of approximately \$9.1 million in gains related to dispositions of real estate interests reported in continuing operations and a decrease in interest income of \$1.6 million due primarily to a realized gain recorded during 2007 on the settlement of a forward-starting interest rate swap. These decreases were partially offset by a \$0.5 million increase in income from our equity interests in our unconsolidated joint ventures.

Other Expenses

Real estate related depreciation and amortization increased by approximately \$1.4 million for the three months ended June 30, 2008 as compared to the same period in 2007 which related to a reduction of the estimated useful lives of certain buildings during the third quarter of 2007. The decrease in general and administrative expenses of \$0.6 million primarily relates to lower professional fees and increased capitalization of overhead to various development and leasing activities, partially offset by higher compensation costs due to increased headcount and share-based compensation expenses. The decrease in interest expense of approximately \$3.9 million is primarily attributable to the lower outstanding balance of our financing obligations during the three months ended June 30, 2008 compared to the same period in 2007, and by a realized gain of \$1.4 million related to the settlement of two forward-starting swaps recorded during the second quarter of 2008. The settlement income related to these swaps offsets the \$1.4 million expense that was recorded in the first quarter of 2008.

Minority Interests

We owned approximately 83% of our operating partnership as of June 30, 2008 compared to approximately 85% as of June 30, 2007 primarily due to issuance of units of limited partnership interests in our operating partnership, or OP Units, to unrelated third-party investors in connection with our operating partnership's private placement (see Note 5 to our Consolidated Financial Statements for additional information).

Discontinued Operations

During the three months ended June 30, 2008, a \$1.2 million impairment charge related to real estate assets held for sale was recorded. No such impairment was recorded during 2007. Four properties were sold during the three months ended June 30, 2008 resulting in gains of \$16.8 million compared to no properties sold during the three months ended June 30, 2007. Operating income for the properties included in discontinued operations was relatively unchanged period over period.

[Table of Contents](#)

Rental Revenues

Rental revenues increased by \$1.9 million, or 2%, for the six months ended June 30, 2008 compared to the same period in 2007, primarily as a result of increased base rent per square foot, slightly higher tenant recovery income, offset by lower occupancy and acquisition and disposition activity. Rental revenues also increased due to additional operating properties classified as held for contribution that were acquired or developed compared to the same period in 2007. Same store rental revenues increased by approximately \$1.9 million, or 2%, for the six months ended June 30, 2008 compared to the same period in 2007 also primarily due to increased base rent per square foot and higher tenant recovery income. Revenues related to early lease terminations increased by \$0.3 million for the six months ended June 30, 2008 compared to the same period in 2007.

Rental Expenses and Real Estate Taxes

Rental expenses and real estate taxes increased by approximately \$1.7 million, or 6%, for the six months ended June 30, 2008 compared to the same period in 2007, primarily as a result of increased maintenance costs and higher property taxes, both of which are generally recoverable from our tenants, partially offset by lower insurance costs. Additionally, we recorded \$0.8 million of bad debt expense during the six months ended June 30, 2008, primarily related to a tenant bankruptcy, compared to \$0.6 million during the same period for 2007. Other non-recoverable expenses increased approximately \$0.5 million during the six months ended June 30, 2008 compared to the same period in 2007. Same store rental expenses and real estate taxes increased by approximately \$2.3 million, or 8%, for the six months ended June 30, 2008 as compared to the same period in 2007, also primarily related to increased maintenance costs and higher property taxes and bad debt expense.

Other Income

Other income decreased by approximately \$17.9 million for the six months ended June 30, 2008 as compared to the same period in 2007, primarily as a result of a decrease of approximately \$16.6 million in gains related to dispositions of real estate interests reported in continuing operations and by a decrease in interest income of \$2.1 million primarily due to realized gains recorded during 2007 on the settlement of a forward-starting interest rate swap.

Other Expenses

Real estate related depreciation and amortization increased by approximately \$1.7 million for the six months ended June 30, 2008 as compared to the same period in 2007 which related to a reduction of the estimated useful lives of certain buildings during the third quarter of 2007. The increase in general and administrative expenses of \$1.2 million primarily relates to higher compensation costs due to increased headcount and share-based compensation expenses, partially offset by increased capitalization of overhead to various development and leasing activities. The decrease in interest expense of approximately \$6.1 million is primarily attributable to the lower outstanding balance of our financing obligations during the six months ended June 30, 2008 compared to the same period in 2007, and decreases in the average LIBOR rate during the six months ended June 30, 2008 compared to the same period in 2007.

Minority Interests

We owned approximately 83% of our operating partnership as of June 30, 2008 compared to approximately 85% as of June 30, 2007 primarily due to issuance of OP Units to unrelated third-party investors in connection with our operating partnership's private placement (see Note 5 to our Consolidated Financial Statements for additional information).

Discontinued Operations

During the six months ended June 30, 2008, an impairment charge of \$1.2 million related to real estate assets held for sale was recorded. No such impairment was recorded during 2007. Five properties were sold during the three months ended June 30, 2008 with a gain of \$17.1 million compared to three properties sold with a gain of \$9.6 million during the six months ended June 30, 2007. Operating income for the properties included in discontinued operations was relatively unchanged period over period.

[Table of Contents](#)

Liquidity and Capital Resources

Overview

We currently expect that our principal sources of working capital and funding for potential capital requirements for expansions and renovation of properties, developments, acquisitions, distributions to investors and debt service will include:

- Cash flows from operations;
- Proceeds from capital recycling, including asset contributions and dispositions;
- Borrowings under our senior unsecured credit facility;
- Other forms of secured or unsecured financings;
- Current cash balances; and
- Distributions from our institutional capital management program.

We believe that our sources of capital are adequate and will continue to be adequate to meet our short-term liquidity requirements and capital commitments. These liquidity requirements and capital commitments include operating activities, debt service obligations, regular quarterly equityholder distributions, capital expenditures at our properties, development funding requirements, forward purchase commitments (as more fully described below) and future acquisitions.

We expect to utilize the same sources of capital we rely on to meet our short-term liquidity requirements to meet our long-term liquidity requirements. We expect these resources will be adequate to fund our operating activities, debt service obligations and equityholder distributions and will be sufficient to fund our ongoing acquisition and development activities as well as to provide capital for investment in future development and other joint ventures along with additional potential forward purchase commitments. In addition, we may engage in future offerings of common stock or other securities.

Cash Flows

During the six months ended June 30, 2008 compared to the same period in 2007, our cash provided by operating activities increased \$12.3 million, from \$64.5 million to \$76.8 million, primarily related to lower interest payments, increase in operating liabilities and higher operating distributions from our institutional capital management joint ventures partially offset by lower interest income and higher general and administrative costs. During the six months ended June 30, 2008, investing activities provided \$2.8 million in cash primarily related to proceeds of \$81.3 million from the sale of five buildings and the contribution of land to an unconsolidated joint venture, offset by \$24.1 million spent for the acquisition of three properties, contributions to our unconsolidated joint ventures of \$24.2 million and capital expenditures related to our industrial properties of \$43.8 million. During the six months ended June 30, 2007, investing activities provided \$43.0 million primarily from the proceeds of \$197.5 million from the sale of 12 properties, offset by \$108.6 million used for the acquisition of 12 properties, \$48.9 million in contributions to unconsolidated joint ventures and \$21.9 million used for capital expenditures. During the six months ended June 30, 2008 compared to the same period in 2007, cash used in our financing activities was relatively flat, however, our cash distributions increased by approximately \$4.0 million related to increased shares and OP Units outstanding, offset by less cash required to service our financing obligations.

During the six months ended June 30, 2008, we paid distributions of \$66.7 million, which were satisfied through our existing cash balances, cash provided by operations and short-term borrowings. During the six months ended June 30, 2007, we paid cash distributions of approximately \$62.7 million.

Common Stock

As of June 30, 2008, approximately 172.1 million shares of common stock were issued and outstanding. The net proceeds from the sales of these securities were transferred to our operating partnership for a number of OP Units equal to the shares of common stock sold in our public and private offerings. Our operating partnership has used these proceeds to fund the acquisition and development of our properties.

[Table of Contents](#)

Dividend Reinvestment and Stock Purchase Plan

In April 2007, we began offering shares of our common stock through our new Dividend Reinvestment and Stock Purchase Plan (the "Plan"). The Plan permits stockholders to acquire additional shares with quarterly dividends and to make additional cash investments to buy shares directly. Shares of common stock may be purchased in the open market, through privately negotiated transactions, or directly from us as newly issued shares of common stock. All shares issued under the Plan were acquired in the open market.

Institutional Capital Management

Property contributions to institutional joint ventures enable us to recycle capital while maintaining a long-term ownership interest in contributed properties. This business strategy also provides liquidity to fund future activities and generates revenues from asset management fees, and we may earn additional fees and incentives by providing other services including, but not limited to, acquisition, development, construction management and leasing.

Forward Purchase Commitments

Nexxus

In November 2006, we entered into six separate forward purchase commitments with Nexxus Desarrollos Industriales ("Nexxus") to acquire six newly constructed buildings totaling approximately 0.9 million square feet. The six buildings are located on separate development sites in four submarkets in the metropolitan area of Monterrey, Nuevo Leon, Mexico. The forward purchase commitments obligated us to acquire each of the facilities from Nexxus upon completion, subject to a variety of conditions related to, among other things, the buildings complying with approved drawings and specifications. Contemporaneously with the execution of the forward purchase commitments, we provided Nexxus with six separate letters of credit, all of which were settled as of June 30, 2008. As of June 30, 2008, we sold our interests in one of the six buildings, we acquired four of the buildings, and have one remaining building which is expected to be acquired in late 2008. Additionally, during late 2007, we began an expansion of one of the buildings acquired and provided Nexxus with an additional letter of credit for \$3.8 million related to the expansion. During the six months ended June 30, 2008, we entered into similar forward purchase commitments for four buildings with Nexxus and provided an additional letters of credit totaling \$21.4 million. Construction of these buildings is expected to be completed in late 2008.

Distributions

The payment of quarterly distributions is determined by our board of directors and may be adjusted at its discretion at any time. We currently pay an annualized distribution rate of \$0.64 per share or OP unit. We believe this level to be appropriate based upon the evaluation of existing assets within our portfolio, anticipated acquisitions and dispositions, projected levels of additional capital to be raised, debt to be incurred in the future and our anticipated results of operations.

During the three and six months ended June 30, 2008, our board of directors declared distributions to stockholders totaling approximately \$33.4 million and \$66.8 million respectively, including distributions to OP unitholders. During the same periods of 2007, our board of directors declared distributions to stockholders totaling approximately \$31.9 million and \$63.8 million, including distributions to OP unitholders. During the three and six months ended June 30, 2008, we paid distributions using existing cash balances, cash provided by operations and short-term borrowings.

Outstanding Indebtedness

As of June 30, 2008, our outstanding indebtedness consisted of secured mortgage debt, unsecured notes and an unsecured revolving credit facility ("line of credit") and totaled approximately \$1.1 billion, excluding \$122.2 million representing our proportionate share of debt associated with unconsolidated joint ventures. As of June 30, 2008, the historical cost of all our consolidated properties was approximately \$2.9 billion and the historical cost of all properties securing our fixed rate mortgage debt was approximately \$1.2 billion. Our debt has various covenants and we were in compliance with all of these covenants as of June 30, 2008.

[Table of Contents](#)

All of these debt instruments require monthly or quarterly payments of interest and many require, or will ultimately require, monthly or quarterly repayments of principal. Currently, cash flows from our operations are sufficient to satisfy these monthly and quarterly debt service requirements and we anticipate that cash flows from operations will continue to be sufficient to satisfy our regular monthly and quarterly debt service. During 2008, we expect to refinance our maturing debt through a combination of extending existing maturities, borrowings under our line of credit and/or new borrowings. During the six months ended June 30, 2008, we entered into an agreement, which is effective June 9, 2008, to extend the maturity date of \$175.0 million of the \$275.0 million senior unsecured note from June 9, 2008 to June 9, 2013, bearing interest at a fixed rate of 6.11%.

In addition, on June 6, 2008 we entered into a term loan agreement with a syndicate of 10 banks, pursuant to which the Company may borrow up to \$300 million in senior unsecured variable rate term loans (see Note 6 for additional information). Loans under the Agreement will be funded in two tranches. The first \$100 million was drawn by the Company on June 9, 2008 (the "Initial Loan") and used to repay maturing unsecured notes. The remaining \$200 million can be funded anytime up to December 31, 2008 at the Company's discretion. The Initial Loan has an interest rate based on LIBOR, and the Company has entered into a swap to fix the LIBOR on the Initial Loan for two years at 3.23% per annum resulting in an effective interest rate of 4.73% per annum based on the Company's current leverage ratio. The Company is required to pay interest on the Initial Loan monthly until maturity at which time the outstanding balance is due.

During the three and six months ended June 30, 2008, our debt service, including principal and interest, totaled \$116.4 million and \$162.3 million, respectively. Our debt service for the same periods of 2007, totaled \$16.9 million and \$36.1 million, respectively.

To manage interest rate risk for forecasted refinancing of fixed-rate debt, we have primarily used forward-starting swaps as part of our cash flow hedging strategy. These derivatives are designed to mitigate the risk of future interest rate fluctuations by providing a future fixed interest rate for a limited period of time. As of June 30, 2008, such derivatives as described in the following table were in place to hedge the variability of cash flows associated with forecasted issuances of debt (dollar amounts in thousands):

	Notional Amount	Swap Strike Rate	Effective Date	Maturity Date
Forward-starting swap	\$ 26,000	5.364%	1/2010	1/2020
Forward-starting swap	\$ 90,000	5.430%	6/2012	6/2022
Swap	\$100,000	3.233%	6/2008	6/2010

Line of Credit

Our senior unsecured revolving credit facility is with a syndicated group of banks and has a total capacity of \$300.0 million and matures December 2010. The facility has provisions to increase its total capacity to \$500.0 million. At our election, the facility bears interest either at LIBOR plus between 0.55% and 1.1%, depending upon our consolidated leverage, or at prime and is subject to an annual facility fee. The facility contains various covenants, including financial covenants with respect to consolidated leverage, tangible net worth, fixed charge coverage, unsecured indebtedness, and secured indebtedness. As of June 30, 2008 and 2007, we were in compliance with all of these covenants. As of June 30, 2008 and December 31, 2007, \$103.0 million and \$82.0 million, respectively, were outstanding under this facility.

[Table of Contents](#)

Debt Maturities

The following table sets forth the scheduled maturities of our debt, excluding unamortized premiums, as of June 30, 2008 (amounts in thousands).

Year	Senior Unsecured Notes	Mortgage Notes	Unsecured Credit Facility	Total
Remainder of 2008	\$ —	\$ 40,128	\$ —	\$ 40,128
2009	—	7,924	—	7,924
2010	100,000	58,512	103,000	261,512
2011	50,000	230,237	—	280,237
2012	—	169,846	—	169,846
Thereafter	275,000	104,221	—	379,221
Total	<u>\$ 425,000</u>	<u>\$ 610,868</u>	<u>\$ 103,000</u>	<u>\$1,138,868</u>

Financing Strategy

We do not have a formal policy limiting the amount of debt we incur, although we currently intend to operate so that our indebtedness will not exceed 60% of our total market capitalization at the time of incurrence. Our total market capitalization is defined as the sum of the market value of our outstanding shares of common stock (which may decrease, thereby increasing our debt to total capitalization ratio), including shares of restricted stock that we will issue to certain of our officers under our long-term incentive plan, plus the aggregate value of OP Units not owned by us, plus the book value of our total consolidated indebtedness and our pro rata share of debt related to unconsolidated joint ventures. Since this ratio is based, in part, upon market values of equity, it will fluctuate with changes in the price of our shares of common stock; however, we believe that this ratio provides an appropriate indication of leverage for a company whose assets are primarily real estate. As of June 30, 2008, our debt to total market capitalization ratio was 42.4%. Our charter and our bylaws do not limit the amount or percentage of indebtedness that we may incur. We are, however, subject to certain leverage limitations pursuant to the restrictive covenants of our outstanding indebtedness. Our board of directors may from time to time modify our debt policy in light of then-current economic conditions, relative costs of debt and equity capital, market values of our properties, general conditions in the market for debt and equity securities, fluctuations in the market price of our common stock, growth and acquisition opportunities and other factors.

Off-Balance Sheet Arrangements

As of June 30, 2008 and December 31, 2007, respectively, we had no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors, other than items discussed herein. In addition to operating leases, we have \$25.2 million of outstanding letters of credit and we own interests in unconsolidated joint ventures. Based on the provisions of certain joint venture agreements, we are not deemed to have control of these joint ventures sufficient to require or permit consolidation for accounting purposes. There are no lines of credit, side agreements, or any other derivative financial instruments related to or between our unconsolidated joint ventures and us, and we believe we have no material exposure to financial guarantees, except for during June 2007, a wholly owned, consolidated subsidiary issued a secured \$16.0 million, 6.0% interest note, maturing on July 1, 2014 to TRT-DCT Industrial Joint Venture I. The note is guaranteed by us until all related obligations are satisfied. Accordingly, our maximum risk of loss related to these unconsolidated joint ventures is generally limited to this note and the carrying amounts of our investments in the unconsolidated joint ventures, which were \$122.2 million and \$102.8 million as of June 30, 2008 and December 31, 2007, respectively. We have, however, made certain non-recourse guarantees (referred to as standard non-recourse carve outs) with respect to certain debt issuances by these joint ventures, which, under certain limited circumstances, may become full-recourse guarantees.

[Table of Contents](#)

Funds From Operations

We believe that net income, as defined by GAAP, is the most appropriate earnings measure. However, we consider FFO as defined by the National Association of Real Estate Investment Trusts, or NAREIT, to be a useful supplemental, non-GAAP measure of our operating performance. NAREIT developed FFO as a relative measure of performance of an equity REIT in order to recognize that the value of income-producing real estate historically has not depreciated on the basis determined under GAAP. FFO is generally defined as net income, calculated in accordance with GAAP, plus real estate-related depreciation and amortization, less gain (or loss) from dispositions of operating real estate held for investment purposes and adjustments to derive our pro rata share of FFO of consolidated and unconsolidated joint ventures. We include the gains or losses from dispositions of properties which were acquired or developed with the intention to sell or contribute to an investment fund in our definition of FFO. Readers should note that FFO captures neither the changes in the value of our properties that result from use or market conditions, nor the level of capital expenditures and leasing commissions necessary to maintain the operating performance of our properties, all of which have real economic effect and could materially impact our results from operations. NAREIT's definition of FFO is subject to interpretation and modifications to the NAREIT definition of FFO is common. Accordingly, our FFO may not be comparable to such other REITs' FFO and, FFO should be considered only as a supplement to net income as a measure of our performance.

The following table presents the calculation of our FFO reconciled from net income for the periods indicated below on a historical basis (unaudited, amounts in thousands):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2008	2007	2008	2007
Net income attributable to common shares	\$ 15,496	\$ 7,837	\$ 15,880	\$ 23,192
Adjustments:				
Real estate related depreciation and amortization	29,266	28,389	58,409	57,172
Equity in (income) of unconsolidated joint ventures, net	(439)	31	(726)	(43)
Equity in FFO of unconsolidated joint ventures	1,517	415	2,984	811
(Gain) on dispositions of real estate interests	(16,723)	(9,132)	(17,530)	(26,578)
Gain (loss) on dispositions of non-depreciated real estate	(39)	9,014	207	12,725
Minority interest in the operating partnership's share of the above adjustments	(2,367)	(4,397)	(7,951)	(6,602)
Funds from operations attributable to common shares – basic	26,711	32,157	51,273	60,677
FFO attributable to dilutive OP Units	5,634	5,774	11,305	10,571
Funds from operations attributable to common shares – diluted	\$ 32,345	\$ 37,931	\$ 62,578	\$ 71,248
Basic FFO per common share	\$ 0.16	\$ 0.19	\$ 0.30	\$ 0.36
Diluted FFO per common share	\$ 0.16	\$ 0.19	\$ 0.30	\$ 0.36
Weighted average common shares outstanding:				
Basic	171,429	168,355	169,908	168,355
Dilutive OP Units	36,225	30,348	37,540	29,356
Diluted	207,654	198,703	207,448	197,711

[Table of Contents](#)

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the risk of loss from adverse changes in market prices such as rental rates and interest rates. Our future earnings and cash flows are dependent upon prevailing market rates. Accordingly, we manage our market risk by matching projected cash inflows from operating, investing and financing activities with projected cash outflows for debt service, acquisitions, capital expenditures, distributions to stockholders and OP unit holders, and other cash requirements. The majority of our outstanding debt has fixed interest rates, which minimizes the risk of fluctuating interest rates.

Our exposure to market risk includes interest rate fluctuations in connection with our credit facility and other variable rate borrowings and forecasted fixed rate debt issuances, including refinancing of existing fixed rate debt. Interest rate risk may result from many factors, including governmental monetary and tax policies, domestic and international economic and political considerations and other factors that are beyond our control. To manage interest rate risk for variable rate debt and issuances of fixed rate debt, we primarily use treasury locks and forward-starting swaps as part of our cash flow hedging strategy. These derivatives are designed to mitigate the risk of future interest rate fluctuations by providing a fixed interest rate for a limited, pre-determined period of time. During the six months ended June 30, 2008 and 2007, such derivatives were in place to hedge some of the variable cash flows associated with forecasted issuances of debt that are expected to occur during the period from 2008 through 2012, and to mitigate fluctuations in certain variable rate borrowings. We do not use derivatives for trading or speculative purposes and only enter into contracts with major financial institutions based on their credit rating and other factors. As of June 30, 2008, such derivatives as described in the following table were in place to hedge the variability of cash flows associated with forecasted issuances of debt (dollar amounts in thousands):

	Notional Amount	Swap Strike Rate	Effective Date	Maturity Date
Forward-starting swap	\$ 26,000	5.364%	1/2010	1/2020
Forward-starting swap	\$ 90,000	5.430%	6/2012	6/2022
Swap	\$100,000	3.233%	6/2008	6/2010

As of June 30, 2008, derivatives with a negative fair value of \$1.5 million were included in "Other liabilities" and derivatives with a positive fair value of \$0.2 million were included in "Other assets, net" in our Consolidated Balance Sheet. As of December 31, 2007, derivatives with a negative fair value of \$4.4 million were included in "Other liabilities" in our Consolidated Balance Sheets. For the three and six months ended June 30, 2008, a loss of \$45,000 was recorded as a result of ineffectiveness due to the change in estimated timing of the anticipated debt issuances. For the six months ended June 30, 2007, a \$0.3 million loss for both periods was recorded as a result of ineffectiveness due to the change in estimated timing of the anticipated debt issuances. Additionally, during the three months ended March 31, 2008, two forward swaps no longer qualified for hedge accounting and a loss of \$1.4 million was recorded to "Interest expense" related to their change in fair value. These swaps were settled on April 29, 2008, we recorded a realized gain of approximately \$1.4 million.

The net liabilities associated with these derivatives would increase approximately \$4.4 million if the market interest rate of the referenced swap index were to decrease 10% (or 42 basis points) based upon the prevailing market rate as of June 30, 2008.

Similarly, our variable rate debt is subject to risk based upon prevailing market interest rates. As of June 30, 2008, we had approximately \$128.2 million of variable rate debt outstanding indexed to LIBOR and U.S. treasury rates. If the prevailing market interest rates relevant to our remaining variable rate debt were to increase 10% (or 37 basis points), our interest expense for the six months ended June 30, 2008 would have increased by approximately \$0.8 million. Additionally, if weighted average interest rates on our fixed rate debt were to change by 1% due to refinancing, interest expense would change by approximately \$4.8 million during the six months ended June 30, 2008.

As of June 30, 2008, the estimated fair value of our debt was approximately \$1.1 billion based on our estimate of the then-current market interest rates.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) under the Exchange Act, as of June 30, 2008, the end of the period covered by this report. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that our disclosure controls and procedures will detect or uncover every situation involving the failure of persons within DCT Industrial Trust Inc. or its affiliates to disclose material information otherwise required to be set forth in our periodic reports. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of June 30, 2008 in providing reasonable assurance that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms.

Changes in Internal Control over Financial Reporting

None.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors set forth in Item 1A. to Part I of our Form 10-K, as amended, filed on March 28, 2008.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Recent Sales of Unregistered Securities

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On May 20, 2008, we held our annual meeting of stockholders (the "2008 annual meeting"). Nine directors were nominated by our board of directors for election by the stockholders at the 2008 annual meeting, each to hold office until the next annual stockholders meeting. A plurality of the shares voted at this meeting approved the election of all nine nominees as described in the table below.

	Votes	
	FOR	WITHHELD
Phillip R. Altinger	146,393,887	850,526
Thomas F. August	146,370,531	873,882
John S. Gates, Jr.	146,387,787	856,626
Tripp H. Hardin	146,393,646	850,767
Philip L Hawkins	146,397,591	846,822
James R. Mulvihill	146,349,736	894,677
John C. O'Keefe	146,396,754	847,659
Bruce L. Warwick	146,368,923	875,490
Thomas G. Wattles	146,285,271	959,142

One other proposal was considered by our stockholders at the 2008 annual meeting:

- *The Accountant Proposal*: the ratification of our selection of KPMG LLP as our independent registered public accounting firm for the year ending December 31, 2008;

EXHIBIT INDEX

a. Exhibits

- +10.1 Second Amendment to the Employment Agreement, dated as of April 24, 2008, between DCT Industrial Trust Inc. and Thomas G. Wattles
- +31.1 Rule 13a-14(a) Certification of Principal Executive Officer
- +31.2 Rule 13a-14(a) Certification of Principal Financial Officer
- +32.1 Section 1350 Certification of Principal Executive Officer
- +32.2 Section 1350 Certification of Principal Financial Officer
- + Filed herewith.

Section 2: EX-10.1 (SECOND AMENDMENT TO THE EMPLOYMENT AGREEMENT)

Exhibit 10.1

SECOND AMENDMENT TO EMPLOYMENT AGREEMENT

This Second Amendment to Employment Agreement (this "Amendment"), effective as of April 24, 2008, is made by and between DCT Industrial Trust Inc. (f/k/a Dividend Capital Trust Inc.), a Maryland corporation (the "Company"), and Thomas G. Wattles (the "Executive").

WHEREAS, the Company and the Executive entered into that certain Employment Agreement dated as of July 21, 2006 (the "Employment Agreement"); and

WHEREAS, pursuant to Section 7.6 of the Employment Agreement, the Company and the Executive desire to amend certain terms of the Employment Agreement as set forth in this Amendment.

NOW, THEREFORE, in consideration of the premises and mutual covenants contained herein and for other good and valuable consideration, the receipt of which is mutually acknowledged, the Company and the Executive agree as follows:

1. Section 3.1 of the Employment Agreement is hereby amended and restated in its entirety as follows:

"3.1 Salary.

(a) The Company shall pay the Executive during the Term a salary at the rate of \$200,000 per annum (the "Annual Salary") in a combination of cash, options to purchase common stock of the Company ("Options"), or other equity awards, such combination to be determined by the Board, or committee thereof, in its discretion. The Board, or committee thereof, may provide for such increases therein as it may in its discretion deem appropriate; provided that in no event shall the Annual Salary be decreased.

(b) If the Annual Salary contains Options or other equity awards, these awards shall be granted on the same date annual equity awards are granted to the Company's other executive officers and valued in the same manner as such awards. Any Options or other equity awards granted as Annual Salary will: (i) vest over a term of 12 months beginning no later than February 28th of the year in which the award is granted, (ii) not contain any conditions to vesting other than the Executive's continued service relationship with the Company or its subsidiaries and (iii) provide for incremental vesting for each day of continued service during the vesting period or, at the Company's election, more accelerated vesting. The portion of any Option or other equity award that will be considered as Annual Salary for any particular year will be limited to the portion that vests during such year. For example, the portion of the Option granted in 2008 that will be considered Annual Salary for 2008 will be limited to the portion vesting between February 11, 2008 and December 31, 2008, and the remainder of the Option, vesting between January 1, 2009 and February 10, 2009, will be considered Annual Salary for 2009. Additionally, any Option granted as Annual Salary will have a term of ten years and, once vested, will not terminate upon the termination of the Executive's service relationship. Except as otherwise set forth above, the terms of any Options or other equity awards granted as Annual Salary will be materially consistent with the terms of such equity awards granted to other executive officers."

2. Section 3.4 of the Employment Agreement is hereby amended and restated in its entirety as follows:

"3.4 Benefits – In General. The Executive shall be entitled during the Term to participate in any group life, hospitalization or disability insurance plans, health programs, retirement plans, fringe benefit programs and similar benefits that are available to other senior executives of the Company generally, on the same terms as such other executives, in each case to the extent that the Executive is eligible under the terms of such plans or programs; provided that the Company shall pay all annual or other

periodic premiums on behalf of the Executive for all health programs (excluding, for avoidance of doubt, any co-pay, deductible or other similar amounts, which shall remain the responsibility of the Executive)."

3. Except as expressly amended hereby, the Employment Agreement continues in full force and effect in accordance with its terms. The Employment Agreement, together with any Exhibits thereto and this Amendment, constitutes the entire understanding and agreement of the parties hereto regarding the employment of the Executive.

4. This Amendment shall be governed and construed in accordance with the laws of the State of Colorado, without regard to any principles of conflicts of laws which could cause the application of the laws of any jurisdiction other than the State of Colorado.

5. This Amendment may be executed by the parties hereto in separate counterparts, each of which when so executed and delivered shall be an original but all such counterparts together shall constitute one and the same instrument. Each counterpart may consist of two copies hereof each signed by one of the parties hereto.

[Remainder of page intentionally left blank]

IN WITNESS WHEREOF, the undersigned have executed this Amendment as of the date first above written.

Section 3: EX-31.1 (RULE 13A-14(A) CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER)

Exhibit 31.1

Certification Pursuant to Rule 13a-14(a)

Under the Securities Exchange Act of 1934, As Amended

I, Philip L. Hawkins, certify that:

1. I have reviewed this quarterly report on Form 10-Q of DCT Industrial Trust Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

Section 4: EX-31.2 (RULE 13A-14(A) CERTIFICATION OF PRINCIPAL

FINANCIAL OFFICER)

Exhibit 31.2

**Certification Pursuant to Rule 13a-14(a)
Under the Securities Exchange Act of 1934, As Amended**

I, Stuart B. Brown, certify that:

1. I have reviewed this quarterly report on Form 10-Q of DCT Industrial Trust Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
